GENERIC ALGAECIDE

SWIMMING POOL ALGAECIDE

Concentrated Swimming Pool Algaecide
Keeps Pool Water Clear and Free of Visible Algae.

Controls Algae Slime in both swimming pools
and outside Spa/Whirlpool/Hot tub baths.

ACTIVE INGREDIENTS:

n-Alkyl (60% C ₁₂ , 30% C ₁₄ , 5% C ₁₆ , 5% C ₁₈) dimethyl benzyl ammonium chlorides	4.2%
n-Dialkyl (60% C ₁₂ , 30% C ₁₄ , 5% C ₁₆ , 5% C ₁₈) methyl benzyl ammonium chlorides	0.8%
INERT INGREDIENTS:	95.0%
TOTAL	100.00%

EPA REG. NO. 1744-20
EPA EST. NO. 41260-NY-01

KEEP OUT OF REACH OF CHILDREN

DANGER

See side panel for additional precautionary
and practical treatment statements.

JONES CHEMICALS, INC.
100 Sunny Sol Blvd.
Caledonia, NY 14423

Net Contents: One Gallon

ACCEPTED

MAY 08 1987

Under the Federal Insecticide,
Fungicide, and Rodenticide Act,
as amended, for the pesticide
registered under
EPA Reg. No. 1744-20

2/2

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

DANGER

Keep out of Reach of Children Corrosive Causes severe eye and skin damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

ENVIRONMENTAL HAZARDS

FISH AND WILDLIFE PRECAUTIONS:

This pesticide is toxic to fish. Do not discharge into lakes, streams, ponds or public waters. Do not contaminate water by cleaning of equipment or disposal of waste.

STORAGE AND DISPOSAL

- DO NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE OR DISPOSAL
- OPEN DUMPING IS PROHIBITED
- DO NOT REUSE EMPTY CONTAINER

Pesticide Disposal - Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Disposal - Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

DIRECTIONS FOR USE • GENERAL CLASSIFICATION

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Initial Dose: Add 1 gallon Generic Swimming Pool Algaecide to 25,000 gallons of pool water.

Maintenance Dose: Add 1 quart Generic Swimming Pool Algaecide to 25,000 gallons of pool water.

Initial dose is used when filling pool at beginning of swimming season. If pool has visible algae growth, treat with initial dose. Vacuum pool after 24 hours to remove algae debris. If visible algae are still present or reappear, repeat this treatment procedure as necessary. When pool is free of visible algae, use the recommended maintenance dose.

Maintenance dose should be added at 3-5 day intervals. If high temperatures prevail or pool has unusually heavy use, add maintenance dose more frequently.

If make-up water is added at the rate of more than 10% per week of pool capacity, add 1 quart of Generic Swimming Pool Algaecide for each 5,000 gallons of fresh make-up water added per week.

When swimming season is over, add 1 gallon of Generic Swimming Pool Algaecide to 25,000 gallons of water in treating water left in pool. This dose helps provide a measure of control of algae growth during the winter months. This treatment will also help the servicing of the pool before it is returned to use the following season.

When Generic Swimming Pool Algaecide is used as directed, it will kill and prevent development of *Chlorella pyrenoidosa* (Green), *Phormidium inundatum* (Black algae), *Phormidium retzii* (Square D algae), *Lyngba versicolor* (Blue-Green) and other swimming pool algae.

Generic Swimming Pool Algaecide is compatible with most commonly used swimming pool chemicals but should not be mixed with soap or other water-treating chemicals.

Generic Swimming Pool Algaecide works best when added by itself directly to pool water. Generic Swimming Pool Algaecide at use dilution is non-corrosive to inanimate surfaces.

DIRECTIONS FOR USE IN SPAS/WHIRLPOOLS/HOT TUB BATHS

Initial Dose: Add 25.6 ounces of Generic Algaecide per 5,000 gallons of water. Initial dose is used upon filling of Spa/Whirlpool/Hot Tub Bath.

Maintenance Dose: Add 6.4 ounces Generic Algaecide per 5,000 gallons of water. Maintenance dose should be added at 3-5 days intervals. If high temperatures prevail or Spa/Whirlpool/Hot Tub Bath has unusually heavy use, add maintenance dose more frequently.

- ▶ Drain and clean Spa/Whirlpool/Hot Tub Bath at least once a month or as needed depending on bather load.
