

... from spraying spray mist, more skin and eye contact. Wash thoroughly after handling and before eating or smoking. Do not allow children or pets to contact treated surfaces until spray has dried. Do not use on plants. Do not allow spray to contact food, feedstuffs or water supplies. Thoroughly wash dishes and food handling utensils contaminated with this product. Remove pets and cover fish bowls before spraying.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds, and other wildlife. Do not contaminate water by disposal of wastes. Apply this product only as specified on this label.

PHYSICAL HAZARDS

Do not use, or store near heat or open flame. Exposure to temperatures about 130°F may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in manner inconsistent with it's labeling.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited.

STORAGE: If container is damaged: Stop any leaks by repositioning the container or by patching or otherwise repairing the leaks. Take care to avoid contact with pesticide and wear protective gear. On cleanup of spilled liquids, wear protective equipment as required to prevent contact with the product or its vapors. Cover the spilled areas with generous amounts of absorbent material, such as clay, diatomaceous earth, sand or sawdust. Sweep the contaminated absorbent on to a shovel and put the sweepings into a salvage drum. Dispose of wastes as below. Place any leaking container into a similar drum or glass container. Do not store, use, pour or spill near heat or open flame.

PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by State and local authorities.

INDUSTRIAL SPRAY CONCENTRATE

ACTIVE INGREDIENTS:

Pyrethrins..... 1.5%
• Technical Piperonyl Butoxide ... 7.5%

INERT INGREDIENTS: 91.0%

TOTAL 100.0%

• Equivalent to 6.0% (Butylcarbitol) (-)-Propylpiperonyl Ether and 1.5% related compounds

KEEP OUT OF REACH OF CHILDREN

CAUTION

See side panel for additional cautions

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Call a physician or poison control center immediately. Do not induce vomiting unless directed by a physician. This product contains a high amount of petroleum distillate. Vomiting may cause aspiration pneumonia.

IF INHALED: Remove affected person to fresh air. Apply artificial respiration if indicated.

IF IN EYES: Flush eyes with plenty of water. Call a physician if irritation persists.

IF ON SKIN: Remove contaminated clothing and wash affected areas with plenty of soap and water.

insects found in homes, institutions and buildings.

For a General Purpose Spray, dilute at the rate of 1 part YORK INDUSTRIAL CONCENTRATE plus 14 parts of a good deodorized base oil.

FOR FLYING INSECTS: For control of flies, mosquitoes, gnats, wasps, hornets and certain other flying pests, direct the spray toward the upper portions of the rooms and saturate the atmosphere with the mist using 1 to 2 oz. to each 1,000 cubic feet of space.

FOR CRAWLING INSECTS: To control roaches, silverfish, crickets, and other crawling insects, spray infested areas thoroughly and direct the liquid behind baseboards, moldings, cabinets, shelves, sinks, door and window frames, and pipes, toward drains and dark corners, and into cracks, crevices, recesses and similar hiding places.

FOR ANTS: Treat shelves, cabinets and storage areas: spray ant runs, trails, baseboards, thresholds and other places of entry, and treat nests liberally.

IN MILLS, ELEVATORS AND GRANARIES, spray floors, walls and other surfaces of bins, storage and handling areas thoroughly with particular attention to cracks, crevices, and similar protected locations. Waste grain, dirt and debris should be removed and destroyed and storage areas cleaned before spraying. Spray thoroughly around the bases of heavy machinery and equipment.
