Cockroaches normally are found in these areas: in cracks and crevices, at the base of the wall, behind baseboards, behind and beneath sinks, refrigerators, stoves and cabinets and around drainpipes. Apply in a manner to avoid spray or mist contacting food, feedstuff and water supplies. Dishes and food handling utensils should be washed in soap and water if they have become contaminated by the application of this product. Repeat treatment as needed.

NOTE: A period of 4 to 7 days after treatment is normally required for maximum effect on cockroaches.

Fish and Crustaceans may be killed if their waters are contaminated with this product. Do not contaminate water by cleaning equipment or disposal of waste.

Promptly crush empty containers and bury them in locations isolated from water.

**DORSBAN 4E INSECTICIDE ESSENTIALS CONCENTRATE**

For use by Pest Control Operators only to control cockroaches and other insects in food establishments.

CAUTION: Keep out of reach of children. Avoid complete enclosures on side of room.

ACTIVE INGREDIENTS:  
 0,0-dimethyl 0,5,5-trifluorophosphorothioate 25.0%  
 p-ridyl methyl methionine 4.0%  
 Aromatic nitrogen derivative solvent 25.0%  
 INERT INGREDIENTS 46.0%
