

DIRECTIONS FOR USE

Use as a spot treatment by applying as a coarse spray to areas where cockroaches normally are found. These areas include dark corners of rooms and closets, at the base of walls, in cracks in the wall, behind baseboards, behind and beneath sinks, refrigerators, stoves and cabinets and around drainpipes. Apply in a manner to avoid spray or mist contacting food, feedstuff and water supplies. Dishes and food handling utensils should be thoroughly washed in soap and water if they have become contaminated by the application of this product. Repeat treatment as needed. NOTE: A period of 4 to 7 days is normally required for maximum effect on cockroaches.

Fish and Crustaceans may be killed if their waters are contaminated with this product. Do not contaminate water by cleaning equipment or disposal of waste.

Promptly crush empty containers and bury them in locations isolated from water.
