

**GENERAL INFORMATION**

York Diazinon 4S Insecticide is an oil solution containing 4 lbs. of Diazinon per gallon. It is intended for use by pest control operators after dilution with insecticidal base oils for the control of those insects listed below. York Diazinon 4S Insecticide is not intended for use in the manufacture of finished products for resale.

**NOTICE:** The solvent used in this formulation is a petroleum distillate which may stain certain plastic, rubber, and other materials such as tiles and floor coverings. Do not use in materials. When used in dwellings, care should be taken to avoid deposits which could be frequently contacted by children. Do not allow children in treated areas until they are dry. Do not contaminate food, food containers, or other articles.

**DIRECTIONS FOR USE:**

**FOOD HANDLING ESTABLISHMENTS:** Place in private residences in which exposed food is processed, prepared or served.

**FOOD AREAS - APPLICATION LIMITED TO CREVICE TREATMENT ONLY**

Includes areas for receiving, storage, processing (canning, bottling, wrapping, boxing) and edible waste storage and enclosed processing systems (mills, dairies, edible oils, etc.). Serving areas (when food is exposed) and is in operation also would be considered areas.

Dilute York Diazinon with deodorized kerosene or other suitable base oil to make 1/2% or 1% Diazinon spray and apply as indicated below. Repeat application as necessary.

**SPRAY DILUTION CHART**

Gallons Finished Spray	Amount of York Diazinon 4S to use for	
	1/2% Spray	1% Spray
1	1.0 fl. oz.	2.0 fl. oz.
2	2.0 fl. oz.	4.0 fl. oz.
3	3.0 fl. oz.	6.0 fl. oz.
10	10.0 fl. oz.	20.0 fl. oz. (1.25 pts.)
25	25.0 fl. oz. (1.6 pints)	50.0 fl. oz. (3.1 pts.)

\*2 Tablespoons = 1 fl. oz.

Apply in small amounts directly into crevices using equipment capable of fine stream of insecticide in joints of different elements of construction, wall and floors, openings leading to hollow spaces in walls, equipment in conduits, motor winding, junction boxes where cockroaches hide.

Prior to application de-energize electrical equipment. After application allow time to evaporate before plugging outlets or switches in the "off" position.

Do not allow spray to be directed into exposed surfaces or introduced into the air. Avoid contamination of food processing surfaces.

**APPLICATIONS OF THIS PRODUCT IN THE FOOD HANDLING ESTABLISHMENTS, FOOD PROCESSING AREAS, AND OTHER AREAS**

Waterbugs, Ants, and Silverfish. Make spot applications with 1/2% York Diazinon as a coarse spray or apply to baseboards, areas around water pipes, devices, surfaces behind and beneath cabinets, sinks, stoves and similar areas where these insects are likely to hide. For Ants, also spray ant trails and places where they enter the premises.

For Weevils, make the first application at 1/2% York Diazinon, followed by monthly applications at 1/2%.

Apply 1/2% York Diazinon spray in spot applications to baseboards and edges of carpeting, under sinks, inside of closets, and on shelving units where they are seen or suspected.

Apply a 1/2% York Diazinon Spray to baseboards and along baseboards. Make spot applications over which these insects may crawl.

For Sawtoothed Grain Beetle, Weevils, Cigarette Beetle, Drugstore Beetle, etc., Apply a 1/2% York Diazinon spray to baseboards where food containers are suspected of being infested. Remove all food and shelving paper from these areas. Do not replace the food packages until spray has dried. Cover shelves with shelving paper. This treatment should be repeated weekly, until all infested areas are cleared, without food packages infested.

For Fleas, Make thorough application to the host animal. Fleas on humans and dogs should be treated with a sleeping pill. Fleas on cats should be treated with a sleeping pill. Fleas on birds should be treated with a sleeping pill.
