

USES

NEW DC 6 is a disinfectant compound. NEW DC 6 is harmless to any inanimate surface where water may be safely used. It is completely water soluble. Especially recommended for disinfecting and cleaning floors, walls, wash basins, toilets, urinals, etc. NEW DC 6 does not act as a carburetor. It disinfects, cleans and deodorizes and does not leave the strong, offensive odors common in some disinfectants. NEW DC 6 cleaning leaves surroundings fresh.

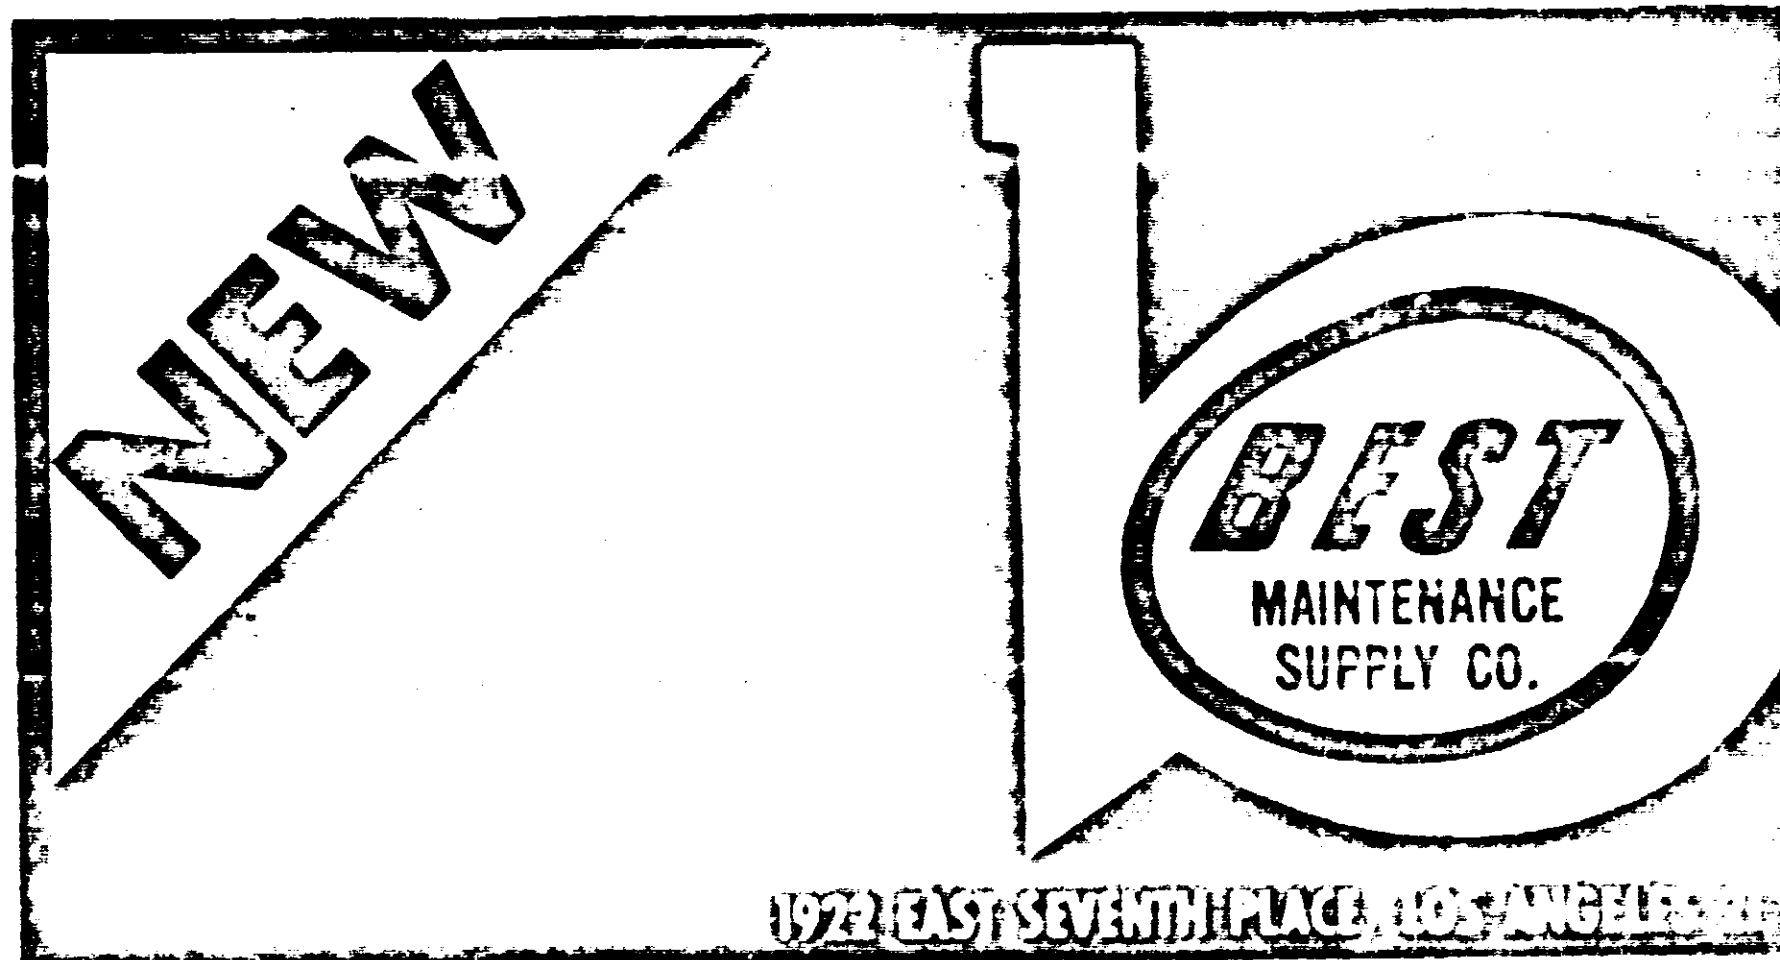

DIRECTIONS

DISINFECTS

NEW DC 6 will disinfect and impart a bacteriostatic residual effect until the surface is resoled. NEW DC 6 is a powerful disinfectant, many times more effective than carbolic acid when tested by the A.O.A.C. Phenol Coefficient method, effective against many types of bacteria, yet harmless to any inanimate surface that water will not damage.

FOR GENERAL DISINFECTING—When disinfecting surfaces or areas suspected of exposure to contagious diseases, apply a disinfecting solution of 1/2 oz per gallon of water, dry thoroughly, allowing a 60 second contact or more. Remove soiled solution and follow with second application using a fresh NEW DC 6 solution of the same concentration.

CAUTION—Avoid contamination of food stuffs. Made for Industrial and Institutional use only. Do not take internally. Avoid contact with skin and eyes. In case of contact, wash thoroughly with water. If irritation persists, get medical attention.

Active Ingredients 90%
n-Alkyl (50% C14, 40% C12, 10% C16)
dimethyl benzyl ammonium chloride
Tertiary amine
Sodium Carbonate
Ethanol
Inert Ingredients 9%
Water, cetyl phenoxy polyethoxy ethanol, sodium nitrite

DEODORIZES

NEW DC-6 is a true deodorizer. It does not cover up with another odor. Odors arising from decay are prevented by inhibition of the putrefactive organisms responsible. Does not form objectionable odor.

CLEANS

NEW DC-6 is an effective cleaner and works in any kind of water, cold or hot, hard or soft. NEW DC-6 has a high degree of detergency in dilute solutions. NEW DC-6 is easy to use. Gives an excellent job of cleaning, disinfecting, and deodorizing in one operation. In most cases need not be rinsed.

REST ROOMS — LOCKER ROOMS — SHOWERS

Wash all soiled areas with a disinfecting solution of 1 1/2 oz or more of NEW DC-6 per gallon of water. Do not rinse.

FLOORS — WALLS — WOODWORK

Normal or slightly soiled areas — daily cleaning with a disinfecting solution of 1 1/2 oz. NEW DC-6 per gallon of water helps to prevent the spread of most contagious disease — causing organisms on surfaces. Do not rinse. For heavily soiled areas, follow with second application using 1 1/2 oz. NEW DC-6 solution of the same concentration.

HOSPITALS

NEW DC-6 is excellent for helping to maintain sanitary conditions in Hospitals, Rest Homes, Sanitariums and other institutions. Always follow the recommendations listed.
