Precautionary Statements
Hazardous to Humans and Domestic Animals

DANGER

KEEP OUT OF REACH OF CHILDREN

Corrosive. Causes eye damage and skin irritation. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

STATEMENT OF PRACTICAL TREATMENT

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call physician immediately.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression, and convulsion may be needed.

STORAGE AND DISPOSAL

- Do not contaminate water, food, or feed by storage or disposal
- Do not store on side
- Avoid creasing or impacting of side walls

PESTICIDE DISPOSAL

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray or mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL

Triple rinse (or equivalent). Then offer for recycling or reconditioning or puncture and dispose of in sanitary landfill, or incineration, or, if allowed by state and local authorities by burning. If burned, stay out of smoke.

Do not reuse empty container. Wrap container and put in trash.

For Sale For Use And Storage By Maintenance Personnel Only

DC-6

CONCENTRATED DISINFECTANT - CLEANER - DEODORANT
STOCK NO. 01602

EPA Registration No. 1750-11

EPA Establishment No. 1750-CA-0

ACTIVE INGREDIENT:

n-Alkyl (50% C14, 40% C12, 10% C16)
dimethylbenzyl ammonium chloride

3.96

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling

DISINFECTS

DC-6 is recommended for pre-cleaned, hard, non-porous, inanimate surfaces. For heavily soiled areas, a preliminary cleaning is required. To disinfect, apply with a mop, cloth or sponge to pre-cleaned surfaces and allow to remain wet for 10 minutes.

FOR GENERAL DISINFECTING

When disinfecting cleaned, hard, non-porous, inanimate surfaces suspected of being contaminated, apply a *disinfecting solution of 1 1/2 oz per gallon of water* very liberally, allowing a contact time of at least 10 minutes or more. Remove soiled solution and follow with second application

REST ROOMS -- LOCKERS ROOMS -- SHOWERS

Wash all soiled areas with a disinfecting solution of 1 1/2 oz or more of DC-6 per gallon of water. Do not rinse

FLOORS -- WALLS -- WOODWORK

Normal or slightly soiled areas -- daily cleaning with a disinfecting solution of 1 1/2 oz DC-6 per gallon of water helps to control cross contamination on hard, inanimate surfaces. Do not rinse

For heavily soiled areas, follow with second application using fresh DC-6 solution of the *same concentration*

HOSPITALS

DC-6 is excellent for helping to maintain a sanitary condition in Hospitals, Rest Homes, Sanitariums and other institutions. In all cases, follow the recommendations listed
