

# DREWGLAD<sup>®</sup> C/F

FOR INDUSTRIAL USE ONLY

## GENERAL APPLICATION INFORMATION

For every 1000 lbs. of wool, 7 lbs. of Drewglad C/F are required to produce wool containing 0.05% dieldrin. Drewglad C/F can be applied at the vortex applicator, mixing picker or by hand. See Drew Chemical Corporation's Drewglad C/F label for full and specific details regarding use.

Do not use in dye bath under ANY CIRCUMSTANCES

## STORAGE CONDITIONS

Keep in locked storage areas with keys in safe. Keep at 32 deg. F. If material is frozen, put in warm water to melt and allow to reach room temperature before use.

Patent Pending • USDA Reg. No. 1757-36

## PERMANENT TYPE MOTHPROOFER FOR WOOL

### INGREDIENT STATEMENT

ACTIVE INGREDIENTS	BY WEIGHT
Dieldrin*	6.67%
Petroleum Hydrocarbons	20.00%
INERT INGREDIENTS	73.33%
TOTAL	100.00%

\*Equivalent to 5.67% Hexachloroepoxyoctahydro-endo, exo-dimethanonaphthalene and 1.00% related compounds.

**CAUTION** - Keep out of the reach of children.  
See right panel for required precautions.

Patent Pending • USDA Reg. No. 1757-36
