

BIOSPERSE® 201

WATER TREATMENT MICROBIOCIDAL
FOR INDUSTRIAL USE ONLY

This product provides excellent control over bacterial and fungal slime formation in cooling towers and similar recirculating cooling water systems. The product also provides effective microbiocidal control in oil field water systems and in industrial recirculating water systems such as pasteurizers

GENERAL CLASSIFICATION

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

STORAGE: Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited. If plastic, do not reuse empty container.

DISPOSAL: Pesticide or rinsate that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies: Triple rinse (or equivalent) all containers and for metal containers, offer for recycling or reconditioning (for plastic containers dispose in an incinerator), or dispose in landfill approved for pesticide containers or bury in a safe place. Consult federal, state or local disposal authorities for approved alternative procedures.
