**DIRECTIONS**

**LAWN AND TURF INSECTS:** To control Ants, White Grubs, Japanese and Oriental Beetle Grubs, Mole Crickets and Mosquitoes.

Apply at the rate of 1-lb to 200 sq. ft. Use a fertilizer spreader and force into grass to get near roots. Hose lawn to drive insecticide into turf. Treat single Ant Hills with 1/2 teaspoonful and wash in with water.

**OUTDOOR USE**

**GARDEN PLANTS-**To control Cutworms, Armyworms, Earwigs, Mole Crickets, Sowbugs, Centipedes, Slugs, Snails, Leaf-cutting Ants: Dust liberally on ground around following plants - beans, broccoli, cabbage, cucumbers, eggplant, melons, peppers and tomatoes. Effective for 10 days or more. Limit use to preplant application or at the time of planting or transplanting.

**FLOWERS, SHRUBS, ORNAMENTALS** - To control Grasshoppers, Thrips, Plant Bugs, Flea Beetles, Cucumber Beetles, Armyworms, Leaf Miners: Dust foliage lightly and thoroughly, covering both side of leaves - repeat as necessary.

**INDOOR USE**

To Control **ANTS, ROACHES, WATERBUGS, SILVERFISH, CRICKETS, SPIDERS, CENTIPEDES, BOX ELDER BUGS** - Thoroughly dust places where insects congregate, crawl or hide, such as cracks, crevices, baseboards, window and door frames and insect runways. Repeat as necessary.

Apply moderate pressure to Duster and make quick sweeps or paint-like strokes which will put down an even strip right where it is needed with a minimum of dust drift.
