AIDS IN THE REDUCTION OF AIRBORNE BACTERIA

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DIRECTIONS: As an air sanitizer, spray MINT AIRF (fog forms) (15-20 seconds with an AEROFOG 700 recommended). MINT AIRF will reduce the number of airborne bacteria and virus particles. This treatment is especially decontaminates the air. Repeated applications should be made periodically according to conditions that prevail.

For deodorizing, spray MINT AIRF upwards into the atmosphere, using a good sprayer (like the AEROFOG 700 recommended) that will produce a good size particles.

For removing mold, mildew, or mildew, spray directly on the surfaces to be treated after they have been cleaned with soap and water. Use a good sprayer for application. Use a good sprayer for application. Use a good sprayer for application.

Areas of Use: National Chem Service MINT AIRF (fog) may be used in hotels, motels, hospitals, and on ships. Applications of this product should be made in areas where there is a high concentration of people.

DO NOT use this product in areas where there are children, pets, or other animals. If you are using this product in a confined space, use proper ventilation. Do not use this product in areas where there are children, pets, or other animals.
