# SABRECIDÉ CONCENTRATE

contact insecticide consisting of pyrethrins and a synergist in a highly refined mineral oil base. CERTIFIED SABRECIDÉ CONCENTRATE is designed for sprayers that create a fine particle size and is recommended for use in food plants, schools, storage buildings, cafeterias, hospitals, and institutions.

**CERTIFIED SABRECIDÉ CONCENTRATE will not stain when used as directed.**

**NOTE:** Food should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before use. When using the product as a space spray in these areas apply only when the plant is not in operation. Certified Sabrecide must not be used on untreated stored bulk grain such as in flour mills, elevators, or grain bins.

**BEETLES AND MOTHS INFESTING STORED FOOD PRODUCTS:** These areas to be sprayed with Sabrecide Concentrate around machinery. To control stored grain areas remove food products from the area and spray the area thoroughly with CERTIFIED SABRECIDÉ CONCENTRATE.

**FLIES AND MOSQUITOES:** These areas to be sprayed with Sabrecide Concentrate around machinery. To control stored grain areas remove food products from the area and spray the area thoroughly with CERTIFIED SABRECIDÉ CONCENTRATE.

**ROACHES, SILVERFISH AND CERTAIN OTHER CRAWLING INSECTS:** These areas to be sprayed with Sabrecide Concentrate around machinery. To control stored grain areas remove food products from the area and spray the area thoroughly with CERTIFIED SABRECIDÉ CONCENTRATE.

**FOR BEETLES AND MOTHS INFESTING STORED FOOD PRODUCTS:** These areas to be sprayed with Sabrecide Concentrate around machinery. To control stored grain areas remove food products from the area and spray the area thoroughly with CERTIFIED SABRECIDÉ CONCENTRATE.

**TREAT UNLOADING, HANDLING, AND PROCESSING AREAS:** Spray the unloading, processing and handling areas of the plant, such as of raw materials, bins, hoppers, and ports, as well as around the base of trucks, machinery and equipment. After treatment, do not handle stored insecticide until it has been removed by thorough cleaning.

**FOR ROACHES, SILVERFISH AND CERTAIN OTHER CRAWLING INSECTS:** Do not spray such areas as to penetrate all cracks, crevices and other hiding places. The insecticide will penetrate into cracks and crevices and will kill the insects. Do not spray areas where food is stored until the insects have been removed by thorough cleaning.

**FOR FLIES AND MOSQUITOES:** These areas to be sprayed with Sabrecide Concentrate around machinery. To control stored grain areas remove food products from the area and spray the area thoroughly with CERTIFIED SABRECIDÉ CONCENTRATE.

**FOR BEETLES AND MOTHS INFESTING STORED FOOD PRODUCTS:** These areas to be sprayed with Sabrecide Concentrate around machinery. To control stored grain areas remove food products from the area and spray the area thoroughly with CERTIFIED SABRECIDÉ CONCENTRATE.
