Subject: Revised Labeling
Ptenocide Aerosol House & Carpet Spray
EPA Registration Number: 4691-154
Application Dated: May 27, 1998

Dear Ms. Vasquez:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, is acceptable subject to the comment listed below. A stamped copy of the draft label is enclosed for your records. Submit two copies of the finished label before the product is released for shipment under the revised label.

Ensure that the new registration number is reflected on your labeling.

Sincerely yours,

Marion J. Johnson, Jr.
Product Manager 10
Insecticide Branch
Registration Division (7505c)

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS - CAUTION:

Causes moderate eye injury. Do not get in eyes or on clothing. Wash thoroughly with soap and water after handling. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Remove contaminated clothing and wash before reuse. Do not contaminate food or foodstuffs. Do not use in edible product areas of food processing plants, restaurants, or other areas where food is commercially prepared, processed or stored. Remove pets, birds and/or cover fish aquariums before use.

STATEMENT OF PRACTICAL TREATMENT

IF IN EYES - Flush eyes with plenty of water. Call physician if irritation persists.

PHYSICAL & CHEMICAL HAZARDS:

Flammable. Contents under pressure. Keep away from heat, sparks, and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

SHAKE WELL BEFORE USING

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For the most effective results, all carpeted surfaces ^{1650 sq. ft.} should be thoroughly vacuumed and the entire dwelling should be treated. Use one can to treat 750 sq. ft. For use in homes, garages, attics, apartments, hotels, kennels and dog houses, and outdoor areas around the house where the pets lie or sleep. Also kills cockroaches, crickets, ticks, silverfish, spiders and ants.

PREPARATION: Cover exposed foods, dishes and food handling equipment. Open cabinets and closet doors to areas to be treated. Turn off fans and air conditioners. Extinguish all open flames except pilot light. Remove pets. Cover aquariums or fish bowls, or remove from area. Pet bedding is a primary hiding place for fleas and must be thoroughly treated or replaced for best results. Close outside doors and windows.

APPLICATION: Before spraying remove pets. To apply product, hold can upside down at arm's length directing spray towards area to be treated. Move can in reverse sweeping motion by backing away from treated area. Immediately exit area. Do not occupy or allow pets to contact treated surface until the spray has completely dried. Before re-occupying, open all outside doors and windows, turn on air conditioner and fans and let treated area air for 30 minutes. Thoroughly clean all covered food processing areas before using. Retreatment may be required for the elimination of an established flea infestation.

STORAGE & DISPOSAL

Store in a cool area away from children. Replace cap, wrap in newspaper and discard container in trash. Do not incinerate or puncture.
