

APR 03 1992

NCH Corporation  
2727 Chemsearch Boulevard  
Irving, TX 75062

Attention: Mrs. Kelly Rahn

Gentlemen:

Subject: Tri-GLY  
EPA Registration No. 1769-106  
Your Letter Dated November 15, 1991

The labeling referred to above, submitted in connection with registration under the federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comment listed below. A stamped copy is enclosed for your records. Five copies of the finished labeling must be submitted before you release the product for shipment.

- Revise the referral statement to read:

See side panel for additional precautionary statements.

The removal of 27.3% Isopropanol from the active ingredient into the inert ingredients is acceptable. However, submit a revised Confidential Statement of Formula and tell us the purpose of Isopropanol in this formulation.

**STATEMENT OF PRACTICAL TREATMENT**

**IF SWALLOWED:** Call a physician or Poison Control Center immediately. If possible, vomiting should be induced under medical supervision. Drink one or two glasses of water and induce vomiting by touching the back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. **IF INHALED:** Remove victim to fresh air. Apply artificial respiration if indicated. **IF ON SKIN:** Remove contaminated clothing and wash affected areas with soap and water. **IF IN EYES:** Flush eyes with plenty of water. Call a physician immediately.

**RIGHT PANEL**

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage or disposal.

**STORAGE: KEEP CONTAINER CLOSED.**

**PESTICIDE DISPOSAL:**

Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**CONTAINER DISPOSAL:**

Triple rinse (or equivalent). Then offer for recycling, reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

1769-106

**NOT FOR RESALE**

**DIRECTIONS FOR USE:**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**DIRECTIONS:** As an air sanitizer, spray TRI-GLY so that a light fog forms -- about 30 seconds (an AERO FOG 300 generator is recommended). TRI-GLY will reduce the number of airborne bacteria and virus particles. This treatment temporarily decontaminates the air. Repeated applications should be made periodically according to conditions that prevail.

For deodorizing, spray TRI-GLY upwards into the atmosphere, using a good sprayer that will produce aerosol-size particles. The AERO-FOG 300 generator is recommended.

For removing musty, moldy or rank odors, spray directly on the surfaces to be treated after they have been cleaned. Dampen a cloth with this liquid and use for wiping bathroom fixtures, telephones, doorknobs, etc., for excellent deodorizing results.

**Areas of Use:** National Chemsearch TRI-GLY when used as directed may be used in hotels, motels, hospitals, restaurants, apartments, office buildings, nursing homes and other areas where air sanitization is indicated.
