

[1769-111]

DIRECTIONS

To Operate:

Hold dispenser upright. Point valve opening away from face. Press button to release spray. Close room and spray until filled with mist. Leave closed for ten minutes or longer and sweep up fallen insects.

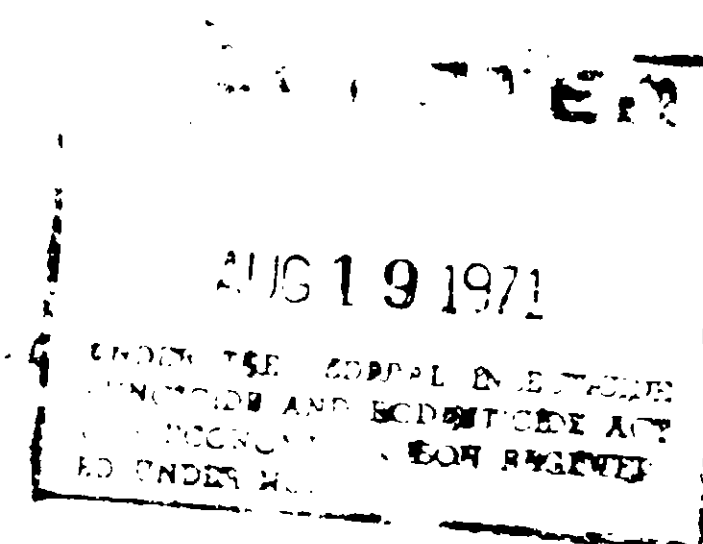

Do not remain in treated areas. Ventilate the area after treatment is completed.

For best results, close doors and windows for ten minutes or longer. Flies, gnats, mosquitoes—spray toward ceiling and center of room. Roaches, ants, silverfish—spray into cracks and crevices enveloping the insect. Repeat spraying often.

Bedbugs—Spray mattress, especially seams and under tufts. Spray springs, beds and baseboards, loosen wall-paper and spray into cracks. Repeat spraying often.

Moths—Remove clothes from closets, brush and air well. Spray clothes thoroughly including seams and folds to kill moth larvae. Spray clothes, trunk, drawers and closets every 30 days. Will not stain when used as directed.

KILLS RESISTANT INSECTS

For industrial and institutional use indoors in schools, offices, restaurants, municipal buildings, industrial and food processing plants. All foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When using the product in these areas, apply only when the plant is not in operation.
