KILZONE

RESIDUAL SPRAY

LASTS FOR FOUR WEEKS

ACTIVE INGREDIENT:

2-(1-Methylethoxy) Phenyl

Methylcarbamate..... 1.0%

*INERT INGREDIENTS:99.0%

TOTAL.....100.00%

* Contains Petroleum distillates

WARNING:

KEEP OUT OF REACH OF CHILDREN

Contents Under Pressure

(See side panel for additional precautions).

NET WEIGHT: 12 oz/340 gm

EPA Reg. No. 1769-164

EPA Est. No. 4140-TX-1

LEFT PANEL

KILZONE is a formulation which provides rapid kill and long residual indoors, and is effective against the following insects, including those resistant to certain chlorinated hydrocarbon and phosphate insecticides:

Ants, Crickets, Flies (outdoors only), Roaches, Sowbugs, Brown Dog Ticks, Earwigs, Millipedes (outdoors only), Scorpions, Spiders, Clover Mites, Mosquitoes (outdoors only), Silverfish, Saw-toothed Grain Beetles (exposed stage).

Kills Roaches, Ants, Spiders, Brown Dog Ticks, Earwigs In and Around Buildings.

For industrial and institutional use in packaged food storage areas, around doors, windows and baseboards, in and around schools, hospitals, municipal buildings, industrial plants and offices, apartment buildings, kennels and rest homes.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

INDOOR APPLICATION: Ants, cockroaches, crickets, scorpions, spiders, saw-toothed grain beetles (exposed stage), silverfish, water bugs: spray into cracks, crevices, around baseboards, windows, doors and similar passageways for these insects. Apply behind and beneath cabinets, refrigerators, sinks, stoves and in and around waste containers. For ants, spray trails and places where ants enter premises. Do not treat foodstuffs or house plants. Remove pets and cover fishbowls before spraying. Do not allow children to contact treated surfaces until the surfaces are completely dry. Repeat as necessary.

BROWN DOG TICKS: Spray sleeping quarters of pets around baseboards, window frames and door frames and wall cracks. Repeat as necessary. Do not spray open floor areas, carpets, furniture, beds or bedding. Old bedding of pets should be removed and replaced with clean, fresh bedding after treatment of pet area. Additionally, treat pets with an E.P.A. approved product registered for direct application to pets. DO NOT spray pets.

APPLICATION WITHIN FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS:

FOOD HANDLING ESTABLISHMENTS: Places other than private residences in which exposed food is held, processed, prepared or served.

FOOD AREAS--APPLICATION LIMITED TO CRACK AND CREVICE TREATMENT ONLY. Includes areas for receiving, storage, packing (canning, bottling, wrapping, boxing), preparing, edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups). Serving areas (when food is exposed and facility is in operation) also would be considered a food area.

Apply a small amount of KILZONE by spraying, using an injection or insertion tube, directly into cracks and crevices such as expansion joints between different elements of construction or between equipment bases and floor, wall voids, motor housings, junction boxes or switch boxes, conduits or hollow equipment legs where ants, cockroaches, silverfish, spiders, saw-toothed grain beetles and water bugs hide. Prior to application, de-energize electrical equipment. After application, allow time for oil to evaporate before starting motors or placing switches in the "ON" position. Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food surfaces.

APPLICATIONS OF THIS PRODUCT IN THE FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS, OTHER THAN AS A CRACK AND CREVICE TREATMENT, ARE NOT PERMITTED.

394
OUTDOOR APPLICATION: Ants, clover mites, crickets, earwigs, flies, millipedes, mosquitoes, sowbugs and brown dog ticks: Treat infested areas thoroughly including outdoor surfaces of screens, doors, window frames, foundations, patios or other places where insects may enter. For ants, treat hills and runways. Repeat when necessary. Do not spray vegetation.

HOW TO USE: Unlike most pressurized bombs, KILZONE emits a small, direct spray to a distance of 6 feet.

Cracks, crevices and hard-to-reach locations can be easily treated without bending, crawling or climbing. Treat the surfaces until wet, moving the spray stream rapidly to prevent excessive wetting and waste of material. Do not point the spray toward people, plants or pets.

RIGHT PANEL

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING:

May be harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing the spray mist and provide adequate ventilation of area being sprayed. Contact with skin, eyes or clothing should be avoided. Keep children and pets off treated surfaces until surfaces are dry. Wash thoroughly after using. Avoid contamination of food, utensils and food preparation areas. Should illness occur, get prompt medical attention.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Treat symptomatically. If swallowed do not induce vomiting. Call a physician immediately.

NOTE TO PHYSICIAN: Atropine Sulfate is antidotal.

IF INHALED: Move to fresh air. Give supportive treatment if necessary. Try to avoid breathing vapor or spray.

IF ON SKIN: Avoid contact with skin. If contact does occur, wash skin thoroughly with soap and water. Wash contaminated clothing. If skin irritation occurs, contact a physician.

IF IN EYES: Avoid contact with eyes. If contact does occur, flush eyes with plenty of water. See a physician.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and wildlife. Keep out of lakes, streams or ponds. Do not apply where runoff is likely to occur. Apply this product only as specified on this label.

474

Spray only on surfaces. Do not use as a space spray.

RESTRICTIONS: Do not apply to drapes, wallpaper, carpets, rugs or similar materials that may be stained.

Avoid excessive wetting of rubber, plastic and asphalt surfaces such as tiles and floor coverings.

STORAGE AND DISPOSAL

STORAGE: Do not use or store near heat or open flame.

PHYSICAL AND CHEMICAL HAZARDS:

Extremely flammable. Contents under pressure. Keep away from fire, sparks and heated surfaces. Do not puncture or incinerate container. Exposure to temperatures above 130 F/54 C may cause bursting.

CONTAINER DISPOSAL:

Replace cap and securely wrap original container in several layers of newspaper and discard in trash. Do not incinerate or puncture.
