KILLS:

Ants	Brown Dog Ticks	Clover Mites
Crickets	Earwigs	Fleas
Flies	Millipedes	Mosquitoes
Sowbugs	Scorpions	Silver Fish
Roaches	Spiders	Saw Tooth Grain Beetles

(exposed stage)

I-SO SECT is a highly effective formulation which provides rapid kill of the insects listed above including those resistant to certain chlorinated hydrocarbon and phosphate insecticides. This product stays on a treated surface and kills insects many weeks after the spray deposit has dried. **RESTRICTIONS:** Do not apply to rugs, carpets, draperies, wallpaper or similar materials that may be stained. **DO NOT USE AS A SPACE SPRAY.**

DIRECTIONS FOR USE

INDOOR APPLICATION: In waste areas, equipment and boiler rooms, storage areas, washrooms and locker rooms, around doors, windows and passageways for ants, cockroaches, crickets, silverfish, waterbugs, scorpions, spiders and saw toothed grain beetles (exposed stage): Mix 1 part of I-SO-SECT with 9 parts of water. Spray this mixture into cracks, crevices, around baseboards, behind and beneath cabinets, sinks and equipment and in and around waste containers and other places where these insects hide. For ants, spray trails and places where ants enter premises. **FOOD HANDLING ESTABLISHMENTS:** Place other than private residences in which exposed food is held, processed, prepared or served.

FOOD AREAS — APPLICATION LIMITED TO CRACK AND CREVICE TREATMENT ONLY. Includes areas for receiving, storage, packing (canning, bottling, wrapping, boxing), preparing, edible waste, storage and enclosed processing systems (meats, dairies, edible oils, etc.). Serving areas when food is exposed and facility is in operation. Do not use on exposed food.

**FOR INDUSTRIAL OR
INSTITUTIONAL USE ONLY**

contamination of food or food processing surfaces. **THE APPLICATION OF I-SO-SECT IN THE FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS, OTHER THAN AS A CRACK AND CREVICE TREATMENT, IS NOT PERMITTED.**

BROWN DOG TICKS: Mix 1 part of I-SO SECT with 9 parts of water. Spray sleeping quarters of pets around baseboards, windows and door frames, wall cracks, and local areas of floor. Repeat when necessary. Fresh bedding should be placed in animal quarters after spraying. Do not treat animals.

OUTDOOR APPLICATION:

Houseflies: Mix 1 part of I-SO SECT with 9 parts of water. Apply at the rate of 1 gallon per 500 square feet or to run off. Thoroughly treat breeding areas, paying particular attention to garbage heaps and dumps.

Ants, Clover Mites, Crickets, Earwigs, Fleas, Flies, Millipedes, Mosquitoes, Sowbugs and Brown Dog Ticks: Treat infested areas thoroughly including outside surfaces of screens, doors, window frames, foundations, patios or other places where insects may enter. For ants, treat hills and runways. Repeat when necessary. Do not spray vegetation.

Mist spray for mosquitoes: Apply 8½ to 11¼ fluid ounces (0.05 to 0.07 lbs. per acre) for mist blower machines calibrated to deliver 100 gallons per hour traveling at a speed of 4 mph and covering a swath width of up to 350 feet. Use 11 to 16 gallons of spray concentrate per 100 gallons of water to treat 170 acres.

WARNING: May be fatal if swallowed, inhaled or absorbed in the skin. Avoid breathing the spray mist and provide adequate ventilation of areas being sprayed. Do not get in eyes, on skin or clothing. Wash thoroughly after using. Avoid contamination of food, utensils and food preparation areas. Do not allow children to contact treated surfaces until surfaces are completely dry. Should illness occur, get prompt medical attention.

TO PHYSICIAN: Atropine sulfate is antidote.

In case of prolonged exposure, wear natural rubber gloves, protective clothing and goggles. In case of contact, wash thoroughly with soap and water. Wash hands, arms, and face with soap and water after contact. Avoid contact with eyes. Wash eyes with clean water after contact with soap and water.
