

LEFT PANEL

NATIONAL CHEMSEARCH

I-80-SECT
Residual Spray

LAST UP TO 4 WEEKS

KILLS:

ants	Brown Dog Ticks	Clover Mites
Crickets	Earwigs	Fleas
Flies	Millipedes	Mosquitoes
Sowbugs	Scorpions	Silverfish
Roaches	Spiders	Saw Toothed Grain Beetles (Exposed Stage)

ACTIVE INGREDIENTS:

2-(1-Methylethoxy) phenol methylcarbamate*.....10.0%

INERT INGREDIENTS:.....90.0%

TOTAL.....100.0%

* U.S. Patent No. 3,111,539 sold under license from Chemagro Corporation.

WARNING:

KEEP OUT OF REACH OF CHILDREN

(See side panel for additional warnings)

CENTER PANEL

NOT FOR RESALE OR RESIDENTIAL USE AND STORAGE, UNLESS APPLIED AND STORED BY SERVICE PERSONS.

HAZARD TO HUMANS AND DOMESTIC ANIMALS

WARNING: Harmful or fatal if swallowed, inhaled or absorbed through the skin. Do not breathe vapors or spray mist. Causes eye and skin irritation. Do not get in eyes, on skin or on clothing.

NOTE TO PHYSICIAN: Atropine sulfate is antidotal.

ENVIRONMENTAL HAZARDS:

This pesticide is toxic to wildlife. Keep out of lakes, ponds or streams. Do not contaminate water by cleaning of equipment or disposal of waste. Do not apply when weather conditions favor drift from areas treated. Apply this pesticide only as specified on the label.

PHYSICAL OR CHEMICAL HAZARD

Do not use or store near heat or open flame.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED - Call a physician or Poison Control Center immediately. If possible, vomiting should be induced under medical supervision. Drink one or two glasses of water and induce vomiting. Do not give anything by mouth to an unconscious person.

IF INHALED - Remove victim to fresh air. Apply artificial respiration if indicated.

IF ON SKIN - Remove contaminated clothing and wash affected areas with soap and water.

IF IN EYES - Flush eyes with plenty of water. Call a physician immediately.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: KEEP CONTAINER CLOSED.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

I-SO-SECT is a highly effective formulation which provides rapid kill of the insects listed above including those resistant to certain chlorinated hydrocarbon and phosphate insecticides. This product stays on a treated surface and kills insects many weeks after the spray deposit has dried.

RIGHT PANEL**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

OUTDOOR APPLICATION:

HOUSEFLIES: Mix 1 part of I-SO-SECT with 9 parts of water. Apply at the rate of 1 gallon per 500 square feet or to run off. Thoroughly treat breeding areas, paying particular attention to garbage heaps and dumps.

Use the Houseflies rates for: Ants, Clover Mites, Crickets, Earwigs, Fleas, Flies, Millipedes, Mosquitoes, Sowbugs and Brown Dog Ticks. Treat infested areas thoroughly including outside surfaces of screens, doors, window frames, foundations, patios or other places where insects may enter. For ants, treat hills and runways. Repeat when necessary. Do not spray vegetation.

Mist spray for mosquitoes: Apply 8 1/2 to 11 3/4 fluid ounces of I-SO-SECT equivalent to 0.05 to 0.07 lbs. of active ingredient per acre. For mist blower machines calibrated to deliver 100 gallons per hour traveling at a speed of 4 mph and covering a swath width of up to 350 feet, use 11 to 16 gallons of spray concentrate per 100 gallons of water to treat 170 acres.

INDOOR APPLICATION:

BROWN DOG TICKS: Mix 1 part of I-SO-SECT with 9 parts of water. Spray sleeping quarters of pets around baseboards, window and door frames, wall cracks, and local areas of floor. Repeat when necessary. Fresh bedding should be placed in animal quarters after spraying. Do not treat animals.

NON-FOOD AREAS: In waste areas, equipment and boiler rooms, storage areas, washrooms and locker rooms, around doors, windows and passageways for ants, cockroaches, crickets, silverfish, waterbugs, scorpions, spiders and saw tooth grain beetles (exposed stage): Mix 1 part of I-SO-SECT with 9 parts of water. Spray this mixture into cracks, crevices, around baseboards, behind and beneath cabinets, sinks and equipment and in and around waste containers and other places where these insects hide. For ants, spray trails and places where ants enter premises.

FOOD HANDLING ESTABLISHMENTS: Places other than private residences in which exposed food is held, processed, prepared or served.

FOOD AREAS - APPLICATION LIMITED TO CRACK AND CREVICE TREATMENT ONLY - Includes areas for receiving, storage, packing (canning, bottling, wrapping, boxing), preparing, edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups). Serving areas, when food is exposed and facility is in operation, also would be considered food areas.

12, 1985
1982
part 1

Using equipment that can deliver a pin stream, apply a small amount of I-SO-SECT diluted 1 part with 9 parts of water directly into cracks and crevices such as expansion joints between different elements of construction or between equipment bases and the floor, wall voids or hollow legs where cockroaches, silverfish, crickets and waterbugs hide. Such treatment will also aid in the control of exposed stages of saw toothed grain beetles. Care should be taken to avoid depositing solutions of I-SO-SECT on exposed surfaces or introducing the material into the air. Avoid contamination of food or food processing surfaces. THE APPLICATION OF I-SO-SECT IN THE FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS, OTHER THAN AS A CRACK AND CREVICE TREATMENT, IS NOT PERMITTED.

RESTRICTIONS: Do not apply to rugs, carpets, draperies, wallpaper or similar materials that may be stained. DO NOT USE AS A SPACE SPRAY.
