LEFT PANEL

National Chemsearch ISO-SPRAY is a highly effective ready to use formulation which provides rapid kill of the insects listed including those resistant to certain chlorinated hydrocarbon and phosphate insecticides. This product stays on a treated surface and kills insects many weeks after the spray deposit has dried. For use at industrial plants, schools, hospitals and municipal buildings for general structural pest control.

RESTRICTIONS: Do not apply to rugs, carpets, draperies, wallpaper or similar materials that may be stained. DO NOT USE AS A SPACE SPRAY. Do not use in edible product areas of food processing plants.

DIRECTIONS FOR USE

INDOOR APPLICATION: For Ants, Cockroaches, Crickets, Silverfish, Waterbugs, Scorpions, Spiders, Saw Toothed Grain Beetles: Spray into cracks, crevices, around baseboards, and other places where these insects hide. Apply behind and beneath cabinets, refrigerators, sinks, stoves and in and around waste containers. For ants, spray trails and places where ants enter premises.

Brown Dog Ticks: Spray sleeping quarters of pets around baseboards, window and door frames, wall cracks, and local areas on floor. Repeat when necessary. Fresh bedding should be placed in animal quarters after spraying. Do not treat animals.

OUTDOOR APPLICATION:

Houseflies: For fly control around buildings, apply at the rate of 1 gallon per 500 square feet or to runoff. Thoroughly treat areas where flies rest, paying particular attention to surfaces of screens, doors, window frames, foundations, garbage cans and patios where flies are a pest or enter.

RIGHT PANEL - OUTDOOR APPLICATION - Continued.

Ants, Clover Mites, Crickets, Earwigs, Fleas, Flies, Millipedes, Mosquitoes, Sowbugs and Brown Dog Ticks: Treat infested areas thoroughly including outside surfaces of screens, doors, window frames, foundations, patios or other places where insects may enter. For ants, treat hills and runways. Repeat when necessary. Do not spray vegetation.

WARNING:

May be fatal if swallowed, inhaled or absorbed through the skin. Avoid spraying on skin, eyes, nose, mouth, or clothing. Wash thoroughly after using. Do not get in eyes on skin or clothing. Wash thoroughly after using. Avoid contamination of food, utensils and food preparation areas. Do not allow children to contact treated surfaces until surfaces are completely dry. Should illness occur, get prompt medical attention. To Physician: Atropine sulfate is antidotal.

In case of prolonged exposure, wear natural rubber gloves, protective clothing, and goggles. In case of contact wash thoroughly with soap and water. Wash hands, arms, and face with soap and water after handling and before eating or smoking. Wash all contaminated clothing with soap and hot water before reuse.

This product is toxic to fish and wildlife. Birds feeding on treated areas may be killed. Keep out of lakes, Streams or ponds.

U.S.D.A. Reg. No. 1769- **175**
