KILLS

Ants	Brown Dog Ticks	Clover Mites
Crickets	Earwigs	Fleas (outdoors)
Flies (outdoors)	Millipedes	Mosquitoes (outdoors)
Sowbugs	Spiders	Silver Fish
Roaches		

National Chemsearch DI-SECT is a highly effective low formulation for use in and about industrial plants, municipal buildings, hospitals, schools and food processing plants. Provides rapid kill of the insects listed above including those resistant to certain chlorinated hydrocarbon and phosphate insecticides. This product stays on a treated surface and kills insects many weeks after the spray deposit has dried.

RESTRICTIONS: Do Not Apply to surfaces and materials which are of similar materials that may be stained. Do Not Use on or near children. Do Not allow children in treated areas until surfaces are dry.

DIRECTIONS FOR USE

INDOOR APPLICATION: For Ants, Crickets, Roaches, Crickets, Silverfish, Waterbugs. Mix 1 part of National Chemsearch DI-SECT to 3 parts of water. Spray this mixture into cracks, crevices, around baseboards, and other places where these insects hide. Apply behind and beneath cabinets, refrigerators, sinks, stoves and in and around waste containers. For roach spray trails and places where roaches enter premises.

APPLICATION WITHIN FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS: Limited to Crack and Crevice Treatment Only. Apply a small amount of DI-SECT directly into cracks and crevices such as expansion joints between different elements of construction or between equipment bases and the floor, wall voids, motor housing, junction boxes or switch boxes, conduits, or hollow equipment legs, where cockroaches, silverfish, crickets, and waterbugs hide. Care should be taken to avoid spraying DI-SECT on exposed surfaces or into dishes, the mouths of children, or on animals. Avoid spraying on clothing, linens, or food.

Apply to all insects in cracks and crevices of the treated area. Do not spray on or near children or animals.

1769-184

Outdoor Application: For Fleas, Mosquitoes, Spiders, Sowbugs, and Brown Dog Ticks. Treat areas including outside surfaces of screens, door and window frames, foundations, patios or other places where insects may enter. For ants, treat trails and runways. Repeat when necessary. Do not spray vegetation.

WARNING: May be fatal if swallowed, inhaled, or absorbed through the skin. Avoid breathing the spray mist and provide adequate ventilation in areas being sprayed. If it gets on skin, remove it immediately. Wash thoroughly after use. Avoid contact with food, clothing, or other prepared areas. Do not use on or near children.

To Physical: Avoid contact with eyes. If contact occurs, flush with water. If it gets in eyes, flush thoroughly with water. Wash thoroughly with soap and water after use. If it gets on clothing, wash it separately.

To Physical: Avoid contact with eyes. If contact occurs, flush with water. If it gets in eyes, flush thoroughly with water. Wash thoroughly with soap and water after use. If it gets on clothing, wash it separately.

Do not apply where it may be inhaled. Do not use on or near children.
