**PESTICIDE DISPOSAL:** Waste resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**CONTAINER DISPOSAL:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture or dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

**NOT FOR RESALE**

**DIRECTIONS FOR USE:**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**As an Air Sanitizer:** For reduction of airborne bacteria. Close all windows and doors. Spray FLAIR so that light fog forms. FLAIR will reduce the number of airborne bacteria and virus particles. This treatment temporarily sanitizes the air. Repeated applications should be made periodically according to conditions that prevail.

**For Deodorizing:** As an air deodorizer, spray FLAIR upwards into the atmosphere, using a good sprayer that will produce aerosol size particles. To deodorize surfaces - for control of foul or dank odors, spray directly on the surfaces to be treated after they have been cleaned. Dampen a cloth with this liquid and use for wiping bathroom fixtures, telephones, door knobs, etc., for excellent deodorizing results.

**AREAS OF USE:** When used as directed, may be used in hotels, motels, hospitals, restaurants, apartments, office buildings, nursing homes and other areas where air sanitization is indicated.
