

**DIRECTIONS:** To disinfect hold the PROMINE-A container about 6" or 8" away from the previously cleaned surface to be disinfected and spray for three seconds until the surface is wet.

To deodorize hold the PROMINE-A container upright, point the valve opening away from the face and spray into the air towards the center of the room for about 4 seconds.

To destroy mildew: (Non-Residual) On hard surfaces such as walls, ceilings and fixtures. Clean surface. Spray surface until wet. Repeat application when mildew reappears.

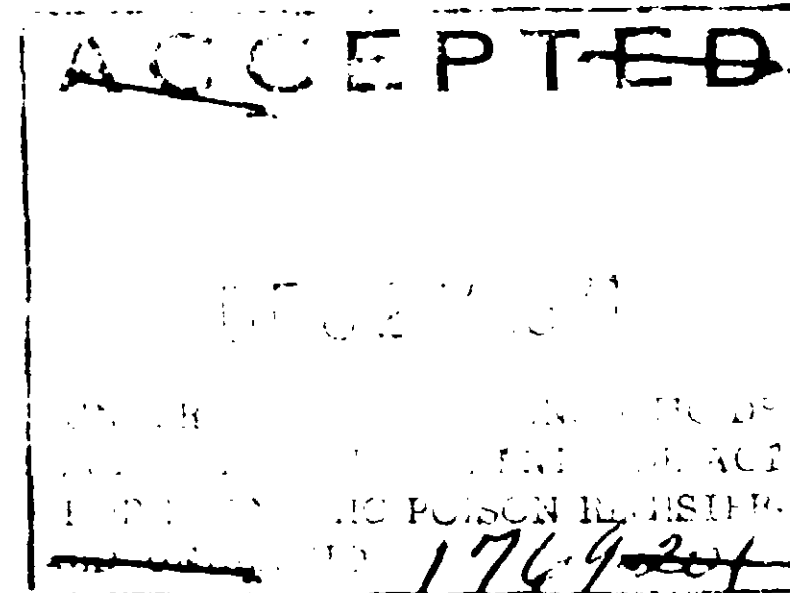

**WARNING:** Avoid breathing of spray mist. Avoid skin contact. Do not get in eyes. In case of contact with eyes, flush at once with water for 15 minutes. Call a physician.

## FOR HOSPITALS AND INSTITUTIONS

**Bactericidal**  
**Staphylocidal**  
**Pseudomonacidal**  
**Fungicidal**  
**Destroys Mildew**  
**Wash & Toss (Non-Residual)**

This product will control the following organisms:

**Staphylococcus aureus**  
**Shigella dysenteriae**  
**Salmonella schottmuelleri**  
**Escherichia Coli**

This powerful hospital disinfectant and deodorant acts quickly on germ laden surfaces such as: Refuse cans, toilet seats, telephones, wash basins, urinals, laundry chutes, door knobs, metal beds and springs, wheel chairs, linen carts, hampers, dressing carts, changing carts, air ducts, light switches, office machinery, and other equipment, after the surface has been properly cleaned. This reduces the threat of cross-infection to patients.

Non-alkaline water supplement for space odor conditioning. Molecular aerosol deodorant attacks malodor at the source. Does not cause stains, discoloration or corrosion odors by chemically neutralizing odor-producing materials.

Effective on odors from any source in hospitals, nursing homes,
