Trichophyton mentagrophytes

Pseudomonas aeruginosa

25  
\*Influenza A (Hong Kong Influenza)  
\*Herpes simplex Type I  
\*Herpes simplex Type II

**DIRECTIONS FOR USE:** It is a violation of federal law to use this product in a manner inconsistent with its labeling.

To disinfect, hold the PROMINE-A container about 6" to 8" away from the previously cleaned hard, non-porous surface to be disinfected and spray for 3 seconds until the surface is wet. Allow the treated surface to thoroughly air dry; do not wipe.

To deodorize, hold the PROMINE-A container upright, point the valve opening away from the face and spray into the air towards the center of the room for about 4 seconds.

To destroy mildew (non-residual) on hard surfaces such as walls, ceilings, and fixtures, clean the surface, spray the surface until it is wet. Repeat the application when mildew reappears.

This powerful hospital disinfectant and deodorant acts quickly on germ-laden surfaces such as refuse cans, toilet seats, telephones, washbasins, urinals, laundry chutes, doorknobs, metal beds and springs, wheelchairs, linen carts, hampers, dressing carts, clean-up carts, air ducts, light switches, office machinery and other equipment after the surface has been properly cleaned. Will reduce the hazard of cross contamination by bacteria, fungi and viruses on inanimate environmental surfaces.

Non-selective odor suppressant for space odor conditioning. Molecular aerosol deodorant attacks malodor at the source. Does not cause anosmia. Suppresses and eliminates odors by chemically neutralizing odor-producing materials.

Effective on odors from any source in hospitals, nursing homes, ambulances, from postcolostomy, post-ileostomy dressings and bags, malignant diseases; homes, kitchens, bathrooms, industrial plant processes, food processing and packaging plants and food stores.

Acts instantly and remains effective for long periods on unpleasant odors from fecal matter, urine, burns, smoke, garlic, onions, food putrefaction, stale air, perspiration, tobacco, sick rooms, closets, fish, etc.
