Dear Mr. Cohen:

Subject: Skychoda  
EPA Registration No. 1769-203  
Amended labeling submitted September 14, 1994

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable provided that you:

1. Correct the chemical name of the active ingredient to read as follows:

1,2-dibromo-2,2-dichloroethyl dimethyl phosphate.

2. Amend the Statement of Practical Treatment to read as follows:

"IF SWALLOWED: Call a physician or Poison Control Center. Do not induce vomiting. Do not give anything to an unconscious person. Avoid alcohol.  
IF INHALED: Remove victim to fresh air. If not breathing, give artificial respiration, preferable mouth-to-mouth. Get medical attention.  
IF ON SKIN: Wash with plenty of soap and water. Get medical attention.  
IF IN EYES: Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Get medical attention."

The Note to Physician is acceptable.

3. Amend the Environmental Hazards Statement to read as follows:

"This pesticide is toxic to fish, aquatic invertebrates, and wildlife. Keep out

of lakes, streams and ponds. Do not contaminate water when disposing of equipment washwater or rinsate. Do not use prior to periods of heavy rainfall."

- 4. Submit one copy of your final printed labeling before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the labeling is enclosed for your records. If you have any questions about this letter, please contact Beth Edwards at (703) 305-5400 or (703) 305-6600.

Sincerely yours,

Robert A. Forrest

# SKYCHODA

For Use In Reducing Filter Fly Larvae Populations

## ACTIVE INGREDIENT

Naled: 1,2-*cis*, bromo-2, 2-dichloroethylidimethylphosphate.....35%  
INERT INGREDIENTS\*..... 65%  
TOTAL.....100%

\*Contains petroleum distillates.

This product contains 3.34 lbs. of Naled

**DANGER**

**KEEP OUT OF REACH OF CHILDREN**

EPA Reg. No. 1769-203

NET CONTENTS: \_\_\_\_\_

## NATIONAL CHEMSEARCH

2727 Chemsearch Blvd., Irving, Texas 75062  
Dallas St. Louis Paramus Beverly Hills  
1982, 1994 NCH Corporation

## DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**WHEN TO APPLY:** Trickle filter fly larvae are beneficial to normal filter operation and should be controlled only when the filter's efficiency is in danger of becoming impaired by unusually large numbers of larvae. This condition is usually noted by a very high density of filter fly larvae below a 6 inch depth with a maximum density at about 18 inches where rocks will appear completely covered with larvae and the filter's interstices will have begun to clog with larvae. Overloading is often the cause of increases in these insect populations and should be prevented whenever possible. Back flooding of the filter(s) is another method of reducing the fly larvae and should be considered as an alternative whenever possible.

ACCEPTED  
with COMMENTS  
in EPA Letter Dated

JAN 18 1995

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act  
as amended for the pesticide  
registered under EPA Reg. No.  
1769-203

**DOSAGE:** One gallon of SKYCHODA per 500 gallons of sewage (800 ppm of active ingredient) must be added in one minute to the top of the trickling filter. To accomplish this, inject by a rubber hose or pour directly in one minute 1 gallon of SKYCHODA per 500 gallons of sewage flow into the sewage stream just before the waste goes through the distributor spray arms. Do not pour into distribution vats or the primary clarifier as this will slow down the time in which the SKYCHODA reaches the filters and reduce its effectiveness. Repeat only when filter is heavily reinfested with larvae.

For differing flow rates, calculate the amount of SKYCHODA needed, based on 1 gallon of SKYCHODA per every 500 gallons of sewage passing through a trickling filter per minute.

### **RESTRICTIONS**

Do not add more than 800 ppm of active ingredient to the sewage stream for any 24 hour period. For differing flow rates, calculate the amount based on 1 gallon of SKYCHODA for every 500 gallons of sewage passing through a trickling filter per minute.

Treated sewage (water) should be retained within the system for at least 24 hours prior to final discharge to a receiving stream.

In systems incorporating multiple trickling filters (2 or more), do not treat more than one trickling filter every 24 hours.

### **PRECAUTIONARY STATEMENTS**

#### **HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

##### **DANGER**

Harmful if swallowed. Concentrate may cause eye and skin damage. Do not get in eyes, or skin, or on clothing. Use waterproof neoprene gloves and face shield or goggles when handling concentrate.

**IF SWALLOWED:** Call a physician or Poison Control Center. Because of aspiration hazard, do not induce vomiting except under medical supervision.

**IF IN EYES:** Flush with plenty of water. Get immediate medical attention.

**IF ON SKIN:** Wash off with soap and water. Get medical attention if irritation persists.

**NOTE TO PHYSICIAN:** Naled is a cholinesterase inhibitor. Atropine is antidotal only if symptoms of cholinesterase inhibition are present.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish. Keep out of lakes, streams and ponds. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not use prior to periods of heavy rainfall.

575

**CHEMICAL HAZARDS:** Flammable mixture. Keep away from heat or open flame.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal. Open dumping and burning is prohibited.

**PESTICIDE DISPOSAL:** Pesticide, spray mixture or rinse water that cannot be used according to label instructions must be disposed of according to Federal or approved state procedures under Subtitle C of the Resource Conservation and Recovery Act.

**CONTAINER DISPOSAL**

**PLASTIC CONTAINER DISPOSAL:** Triple Rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by incineration, or, if allowed by state and local authorities, by burning. If burned stay out of smoke.

**METAL CONTAINER DISPOSAL:** Triple Rinse (or equivalent) Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

**Not for resale**

**For medical or environmental emergencies, call 214-438-1381.**

**MADE IN THE U.S.A.**
