

- Less water changing — saves money
- Colorless and odorless
- In swimming pools, prevents slippery pool bottoms—can't harm pool finish.

DIRECTIONS FOR USE:

IN SWIMMING POOLS: For outdoor swimming pools, when algae are first visible add 1 gallon of D-ALGAE to each 10,000 gallons of water. After the algae settle to the bottom, clean out the pool. Refill with water and add 1 gallon of D-ALGAE to each 25,000 gallons of water to prevent future growth. Add an additional quart per 25,000 gallons of water every five to seven days.

When the weather is hot or bathing load heavy, use this dosage every 5 days or as needed. Also, add quart per 25,000 gallons of water after every rain.

IMPORTANT: Follow above directions, even when pool is not used.

D-ALGAE

DEPRESSES ALGAE GROWTH

ACTIVE INGREDIENTS:

Alkyl (60% C₁₄, 25% C₁₂, 15% C₁₆) dimethyl
benzyl ammonium chlorides 5.0%

INERT INGREDIENTS: 95.0%

EPA Reg. No. 1769-218-AA

WARNING:
KEEP OUT OF REACH OF
CHILDREN

(See right panel for additional cautions)

D-ALGAE is a product specifically formulated to economically depress algae growth that cause offensive odors in swimming pools. D-ALGAE is an effective algistat. Due to its non-volatile nature, it is not lost by evaporation.

WARNING: Harmful or fatal if swallowed. The concentrate of D-ALGAE causes eye damage and skin irritation. Do not get in eyes or on skin. In case of contact, flush with plenty of water, for eyes, get medical attention. Avoid contamination of food and feedstuffs.

CAUTION: This product is toxic to fish. Do not discharge treated effluent into lakes, streams or ponds.

NOTICE: KEEP FROM FREEZING. If this product is stored in cold or freezing weather it may separate or thicken. This will not harm the performance. Before using, warm to room temperature and stir thoroughly.

Rinse empty container thoroughly with water and discard it.
