TRANSECT

INSECTICIDE

ACTIVE INGREDIENTS:

d-trans Allethrin (allyl homolog of Cinerin I).....	0.250%
*Piperonyl butoxide, technical.....	0.500%
+N-octyl bicycloheptene dicarboximide.....	0.825%

INERT INGREDIENTS**.....	98.425%
---------------------------------	----------------

TOTAL.....	100.000%
-------------------	-----------------

* Consists of .400% (butylcarbityl) (6-propylpiperonyl) ether and .100% other related compounds.

+MGK 264 Insecticide Synergist.

** Contains petroleum distillate

CAUTION:

KEEP OUT OF REACH OF CHILDREN

CENTER PANEL

NOT FOR RESIDENTIAL USE AND STORAGE UNLESS APPLIED AND STORED BY SERVICE PERSONS.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if swallowed. Do not breathe spray mist. Avoid contact with skin, eyes or clothing. In case of contact, immediately flush eyes or skin with plenty of water. Get medical attention if irritation persists.

PHYSICAL OR CHEMICAL HAZARD: Do not use or store near heat or open flame.

Not Reviewed. Registrations to be in accordance with Reregistration of Pesticide Products Guidance for Phase 2 Response, Page 2.12, Active to Inert Change in Status.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Call a physician or Poison Control Center immediately. Do not induce vomiting or give anything by mouth to an unconscious person.

IF INHALED: Remove victim to fresh air. Apply artificial respiration if indicated.

IF ON SKIN: Remove contaminated clothing and wash affected areas with soap and water.

IF IN EYES: Flush eyes with plenty of water. Call a physician immediately.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: KEEP CONTAINER CLOSED.

This pesticide is highly toxic to fish. DO NOT apply directly to water or wetlands (swamps, bogs, marshes, and potholes). Drift from treated areas may be hazardous to organisms in adjacent aquatic sites. Do not contaminate water when disposing of equipment washwaters.

PESTICIDE DISPOSAL: Waste resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL

PLASTIC CONTAINER DISPOSAL

Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of the smoke.

METAL CONTAINER DISPOSAL

Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by State and local authorities.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

SPACE SPRAY TO KILL FLIES, MOSQUITOS, SMALL FLYING MOTHS AND

GNATS: Cover or remove exposed food and food handling surfaces. Close room and shut off all air conditioning or ventilating equipment. Apply with mechanical or compressed air sprayer or with fogger which gives small particle size.

37

Direct upwards toward upper corner of room and ceiling. Apply at the rate of 1 to 2 fluid ounces per 1000 cubic feet of space to be treated. Leave room closed for one half hour. Ventilate room thoroughly before reentry. Repeat as necessary for insect control.

CONTACT OR SURFACE SPRAY TO KILL ROACHES, WATER BUGS AND ANTS:
Cover or remove food before application as described under space spray. Apply with a sprayer that gives large wetting droplets. Force spray into cracks and crevices in walls and floors, areas at base of machinery, behind cabinets, around pipes and openings, along baseboards and other insect harborages. Use one gallon of spray per 1000 square feet of surface to be treated. For ants, spray trails and all points of entry into the building. Spray ant nests directly with a soaking application. In all cases, contact as many insects as possible directly with the spray. Repeat application as necessary for control.

NOTE: Do not apply directly to food. Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When using TRANSECT in these areas, apply only when the facility is not in operation.
