EVERBRITE™

GERMICIDAL CLEANER

CLEANS – DISINFECTS – DEODORIZES

Disinfects Influenza A2, Herpes Simplex and most Lipophylic viruses carried on inanimate environmental surfaces.

ACTIVE INGREDIENTS

1-A, 3,5-DICHLORO-4-AMINO-2-NITROBENZENE	1.00
1,4-DIOXANE	1.00
TRIETHYLENE GLYCOL	1.00
SODIUM HYDROXIDE	1.00
PERFUMING AGENTS	1.40

DANGER

KEEP OUT OF REACH OF CHILDREN

See side panel for additional precautionary

EPA Reg. No. 1769-236-AA

- FREE RINSING
- PREVENTS LIME DEPOSITS
- DEODORIZES AND DISINFECTS

DIRECTIONS FOR USE - Remove gross dirt and heavy deposits from surfaces prior to application of the recommended solution. For cleaning and disinfecting cement floor surfaces or lin sealed wood floors, dilute EVERBRITE Germicidal Cleaner 2 ounces per gallon of water. Use 4 to 5 ounces per gallon of water if the floor is extremely dirty. Apply with a clean mop or apply with a thoroughly wet floor. After the cleaner has softened the dirt and soil, pick up the residue with a mop, squeegee or wet pick up vacuum. If desired, the floor may be rinsed with clear water.

Walls and other hard surfaces should be cleaned and disinfected with the dilution used for floors. Apply with a cloth or sponge. Rinse with water. Follow the directions on the left panel.

For sanitizing food processing, meat packing and dairy equipment, clean and rinse equipment thoroughly. Then apply a solution of 1 ounce of EVERBRITE Germicidal Cleaner per 5 gallons of water by flooding the surface, mopping or wiping on. No rinsing required.

NOTE - Do not reuse empty drum. Return to program conditioner or deodorizer by perforating and burying in a safe place.

DANGER - Causes eye damage. Causes skin irritation. Do not get in eyes, on skin or clothing. Protect eyes when handling the concentrated product. Harmful if swallowed. Avoid contamination of food.

FIRST AID - If swallowed, drink large quantities of water. Give milk or whole milk. If in eyes, irrigate with water. If on skin, wash with soap and water. Give plenty of water. Call a physician.

NOTICE - KEEP FROM FREEZING - If this product is stored in cold or freezing weather, it may separate or curdle. This will not harm the performance. Before use, warm to room temperature and stir thoroughly.
