

[769-240]

For crawling insects (beetles, earwigs, cockroaches, sowbugs, spiders and centipedes) Spray thoroughly into hiding places such as cracks, crevices, moist areas, openings around pipes and sinks, under refrigerators, baseboards, and storage areas. Spray directly on insects when possible.

**Ants:** Spray trails, nests and points of entry. Spray on ants where possible. Repeat as necessary.

**Bedbugs:** Spray mattress, especially seams and under tufts. Spray springs, beds and baseboards. Loosen wallpaper and spray into cracks. Repeat spraying often.

**Moths:** Remove clothing from closets. Brush and air well. Spray clothes thoroughly to kill moth larvae. Spray clothes, trunks, drawers and closets every 30 days. Will not stain when used as directed.

**WARNING:** Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 130°F may cause bursting. Never throw into fire or incinerator.

**CAUTION:** Keep out of reach of children. Avoid contamination of food and foodstuffs.

Do not handle near open flame or any open flame. Do not use near open flame. All food near or on surface should be removed or thoroughly cleaned before use. Do not apply to skin or clothing.

Do not use near open flame. Do not use near open flame. Do not use near open flame. Do not use near open flame.

Do not use near open flame. Do not use near open flame. Do not use near open flame. Do not use near open flame.

PACK NO. 1769-240-1A

SEE INSTRUCTIONS ON CONTAINER

lice, flea, mosquitoes, gnats, wasps, roaches, earwigs, ants, moths, bedbugs, silverfish, grain mites, sowbugs, spiders and centipedes.

**DIRECTIONS:** Remove protective cap. Hold can upright. Point valve opening away from person. Push button to spray. Hold 2 feet from object being sprayed. Spray 6 to 8 seconds for average size (1000 cubic foot) room.

**For houseflies, mosquitoes and gnats:** Close all doors and windows. Point nozzle upward and direct spray mist to all parts of room, especially windows and other light sources that attract these insects. Fill the room with mist, then leave the treated area. Keep the room closed for at least 15 minutes. Ventilate the room when treatment is completed. Repeat application as needed.

**Wasps:** Application should be made in late evening when insects are at rest. Spray liberally into hiding and breeding places, contacting as many insects as possible. Repeat as necessary.

Do not use near open flame. Do not use near open flame. Do not use near open flame. Do not use near open flame.
