

NATIONAL CHEMSEARCH

AEROSOL CONCENTRATE

JUN 1 1978

Under No. 1769-264
Paraffin and Kerosene
as specified for the product
is listed under
1769-264

ACTIVE INGREDIENTS:	100.00%
Petroleum Distillates	98.20%
Technical Piperonyl Butoxide*	1.50%
Pyrethrins	.30%

*Equivalent to 1.20% (Butylcarbityl) (6-propyl-piperonyl) ether and 0.30% related compounds.

Classified by Underwriters' Laboratories, Inc. as to Fire Hazard Only. National Aerosol Concentrate Classed 20 to 25 between Paraffin Oil and Kerosene in Respect to Fire Hazard. See UL Index of Classified Products.

EPA Reg. No. 1769-264-AA

CAUTION:

KEEP OUT OF REACH OF CHILDREN

National Chemsearch AEROSOL CONCENTRATE is a concentrated contact insecticide formulated with pyrethrins and a synergist in a highly refined mineral oil base. National Chemsearch AEROSOL CONCENTRATE is especially designed for use in steam vaporizers, compressed air sprayers, heat-generated fogging machines and sprayers that produce extremely fine particle sizes such as the MULTI-MIST. National Chemsearch AEROSOL CONCENTRATE, when used as directed, is recommended for use in bakeries, wholesale groceries, bottling plants, restaurants and other industries that require a nonstaining insecticide.

National Chemsearch AEROSOL CONCENTRATE is a concentrated insecticide scientifically formulated for control of the exposed stages of roaches, certain insects infesting stored food product areas, silverfish, flies, mosquitos, wasps, gnats, small flying moths, waterbugs, crickets, spiders, ticks and centipedes.

FOR EXPOSED STAGES OF GRANARY WEEVILS, CONFUSED FLOUR MEAL BEETLE, ANGUOMIS GRAIN MOTH, INDIAN MEAL MOTH, CADELLES, RUST RED FLOUR BEETLES, SAWTOOTH GRAIN BEETLES, SPIDER BEETLES, GRAIN MITES, RICE WEEVILS INFESTING STORED FOOD PRODUCT AREAS: Clean areas to be sprayed, especially cracks, crevices and around machinery. To spray food storage areas, remove food products from shelves and racks. Spray these areas thoroughly with National Chemsearch AEROSOL CONCENTRATE and replace food products. For packaged food, spray in such a manner that a light mist will fall upon the packages. For food products in sacks, spray thoroughly between and around the sacks paying particular attention to all cracks, crevices, walls and any other place that might offer shelter to the insects. Contact as many insects as possible. After all the local areas of storage have been sprayed, close all windows and doors. Thoroughly fog the entire storage area, being extremely careful that all open food products are covered. Wet surfaces of the storage area thoroughly after thorough cleanup and prior to filling with grain. Do not apply directly to grain or oil bearing seeds. After 10 to 20 minutes, sweep up and destroy all fallen insects. Repeat sprayings at least once a week or when reinfestation becomes evident.

When the actual stored food product is infested, use fumigation or other effective methods using an approved product intended for this specific purpose.

Not Intended For House
Hold Use Or Resale

TREAT UNLOADING, HANDLING AND PROCESSING AREAS: Spray the conveying, processing and handling equipment as well as around the base of heavy machinery and equipment. After 10 to 20 minutes, remove dead insects and run equipment to aerate before beginning operations.

FOR ROACHES, SILVERFISH, WATERBUGS, CRICKETS, SPIDERS, TICKS, CENTIPEDES: Direct spray in such a manner as to penetrate all cracks, crevices and other hiding places. Thoroughly fog around shelves, under sinks, refrigeration equipment, dishwashing machines and bottle washers. Treat all returned bottle cartons and cases. Contact as many insects as possible. For badly infested areas, spray daily. During the summer months, spraying twice a week is advisable. Do not remain in treated areas. Ventilate the area after treatment is completed.

FOR FLIES AND MOSQUITOS, WASPS, GNATS, SMALL FLYING MOTHS: Close all doors and windows before spraying. Direct spray toward the ceiling and continue spraying until area is thoroughly fogged. After 10 to 20 minutes, sweep up and destroy all fallen insects. Repeat spraying as often as necessary. Do not remain in treated areas. Ventilate the area after treatment is completed.

WASP NESTS: Spray directly on insects, nests and into hiding places. Application should be made in late evening (if possible) when wasps return to their nests.

CAUTION: Harmful if swallowed. National Chemsearch AEROSOL CONCENTRATE is a combustible mixture and should not be sprayed near an open flame. Do not spray directly into foodstuffs. Use in food processing plants only when plant is not in operation. Foods should be removed or covered during treatment. All food processing surfaces should be covered or thoroughly cleaned before using. When using the product in these areas, apply only when the facility is not in operation. Do not treat bulk grain products.

Remove pets, birds and cover fish aquariums before spraying.

ENVIRONMENTAL CAUTIONS: This product is toxic to fish. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes. APPLY THIS PRODUCT ONLY AS SPECIFIED ON THIS LABEL.

Do not reuse empty drum. Return to drum reconditioner or destroy by perforating or crushing and burying in a safe place away from water supplies.

NOTICE: KEEP FROM FREEZING. If this product is stored in cold or freezing weather it may separate or thicken. This will not harm the performance. Before using, warm to room temperature and stir thoroughly.
