

DIRECTIONS FOR USE CONTINUED

Space Spray - Diluted for Ordinary Mechanical Fogging Equipment to Kill Flies, Mosquitoes, Small Flying Moths and Gnats:

Prepare for application as above. Dilute Concentrate with refined kerosene at the rate of 1 part Concentrate plus 9 parts of refined kerosene and mix well. Apply at the rate of 50 fl. oz. dilute spray (0.4 gal.) per 25,000 cu. ft. of space above animals. Direct fog upward toward upper corners of room and ceiling. Vacate room and leave closed for one-half hour.

NOTE: When using oil as the diluent, an odorless light petroleum hydrocarbon as defined by CFR Title 21, §172.884 should be used for all food area and food related applications. Additionally, when diluted and used according to label directions, this spray will meet specifications for use under USDA poultry, meat, rabbit and egg products inspection program.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Store in a cool, dry place, Keep container closed.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be used on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse (or equivalent) and offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other approved State and Local procedures.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

GENERAL: This product is designed for use undiluted in mechanical sprayers which produce particles of aerosol size, such as the LECO or MICRO-GEN.

NOTE: When used in hospitals, patients should be removed prior to treatment. Ventilate for two hours after treatment. Do not return patients to room until after ventilation.

FOR USE IN HOMES, RESTAURANTS, FOOD PROCESSING PLANTS AND OTHER INDUSTRIAL AREAS: Space Spray Undiluted: To Kill Houseflies, Mosquitoes, Gnats and Small Flying Moths: Close room and shut off all air conditioning or ventilating equipment. Using a cold fog generator, apply at the rate of one-half (.5) ounce per 1,000 cu. ft. of space. Direct output from aerosol generator upwards toward upper corners of room and ceiling. Leave room closed for one-half hour. Ventilate room thoroughly before reentry. Repeat as necessary.

Space Spray - Diluted for Ordinary Mechanical Fogging Equipment - To Kill Flies, Mosquitoes, Small Flying Moths and Gnats: Cover or remove exposed food and food handling surfaces. Close room and shut off all air conditioning or ventilating equipment. Dilute Concentrate with oil at the rate of 1 part Concentrate plus 9 parts of oil and mix well. Apply at the rate of 50 fl. oz. of dilute spray (.4 gal.) per 25,000 cu. ft. of space. Direct fog upward towards upper corners of room and ceiling area. Leave room closed for one-half hour. Do not remain in treated areas. Ventilate room thoroughly before reentry.

Contact Spray - Undiluted - To Kill Cockroaches, Rice Weevils, Sawtoothed Grain Beetles, Confused Flour Beetles, Black Carpet Beetles, and Indian Meal Moth Larvae: Close room and shut off all air conditioning or ventilation equipment. Using a cold fog aerosol generator, direct discharge into areas suspected of harboring these pests. Special attention should be paid to cracks, hidden surfaces under sinks, behind stoves and refrigerators, and wherever these pests are suspected of hiding. Spray until treated surfaces are moist with deposit. Leave room closed for one-half hour. Ventilate room thoroughly before reentry. Repeat as necessary.

Contact Spray - Diluted for Use with Sprayers that Give Large Wetting Spray Particles to Kill Cockroaches and Accessible Stages of Granary Insects: Granary weevils, Rice weevils, Confused Flour Beetles, Rusty Grain Beetles, Red Flour Beetles, Indian Meal Moth Larvae and Adults, Caddisflies, Grain Mites and Sawtoothed Grain Beetles: Cover or remove exposed food and close room as described above. Dilute Concentrate with oil at the rate of 1 part Concentrate plus 9 parts of oil and mix well. Spray outside walls of grain bins, flooring, about base of milling machinery, walls and baseboards, areas behind cabinets, around pipes and other insect harbourages using 1 gal. of spray per 1,000 sq. ft. of surface. Force spray into all cracks and crevices. Repeat applications as necessary.

FOR USE IN DAIRY AND BEEF BARN, SWINE HOUSING: Space Spray - Diluted for Use in Aerosol Generators to Kill Flies, Mosquitoes, Gnats, Small Flying Moths and Exposed Cockroaches: Cover or remove exposed food and watering troughs and close house as tightly as possible. Dilute Concentrate with refined kerosene at the rate of 1 part Concentrate plus 1 part oil and mix well. Direct spray upward and apply until room is filled with mist. Keep closed for one-half hour and ventilate thoroughly prior to reentry.

Irving, TX 75062

Dear Mr. Uhl:

Subject: Your Letter Dated December 15, 1988 and Confidential
Statement of Formula Dated December 19, 1988
EPA Registration No. 1769-264

The Confidential Statement of Formula (CSF) referred to above, submitted in connection with registration under section 3(c)(7)(A) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable and has been placed in the subject product's file.

Please submit a label amendment to revise your Statement of Practical Treatment to read as follows (unless existing toxicity data indicate otherwise and support leaving the statements as they currently appear):

STATEMENT OF PRACTICAL TREATMENT

- If Swallowed: Do not induce vomiting. Call a physician or Poison Control Center immediately.
- If Inhaled: Remove to fresh air.
- If On Skin: Remove contaminated clothing and wash affected areas with soap and water.
- If In Eyes: Flush eyes with plenty of water. Get medical attention if irritation persists.

**Note To Physician: Contains petroleum distillate.
Vomiting may cause aspiration
pneumonia.**

Please note that the major supplier for petroleum distillates listed on your CSF is not an EPA registered source. If you choose to maintain petroleum distillates as an active ingredient, you will be responsible for complying with the reregistration requirements for petroleum distillates. You can avoid this by amending your product's registration to make petroleum distillates an inert ingredient.

Sincerely yours,

Phil Hutton
