KILLZOL BRAND is a contact insecticide incorporating pyrethrum and synergist in a highly refined mineral oil base. KILLZOL BRAND will not stain. KILLZOL BRAND is formulated to control roaches, silverfish, certain insects infesting stored food product areas (see below), bed bugs, flies, small flying moths, mosquitoes, gnats, wasps, water bugs, crickets, spiders, and centipedes. For best results, KILLZOL BRAND should be used with electric sprayers, but hand or compressed air sprayers may be used.

### DIRECTIONS

Foods should be removed or covered during treatment. All food processing surfaces should be covered or thoroughly cleaned before using. When using this product in these areas, apply only when the facility is not in operation. Do not use on bulk grain products.

**FOR THE CONTROL OF EXPOSED STAGES OF GRANARY WEEVILS, CONFUSED FLOUR BEETLE, INDIAN MEAL MOTH, ANGOUMOIS GRAINMOTH, CADELLES, RUST RED FLOUR BEETLES, SAW TOOTH GRAIN BEETLES, SPIDER BEETLES, GRAIN MITES, RICE WEEVILS IN FOOD STORAGE AREAS:** Clean areas to be sprayed, especially cracks, crevices, and around machinery. Good housekeeping makes for more effective insect control and a definite savings in the amount of KILLZOL BRAND required. To spray food storage areas, remove food products from shelves, racks or storage areas. Spray these areas thoroughly with KILLZOL BRAND and replace food products. For packaged food, spray in such a manner that a light mist will fall upon the packages. For food product in sacks, spray thoroughly between and around sacks, paying particular attention to all cracks, crevices, walls, and any other places that may offer shelter to the insects. Contact as many insects as possible. After a thorough cleaning of storage, have sprayed, close all windows and doors. Thoroughly treat the entire storage area, being extremely careful that all food products are covered. Do not allow the spray to contact open food products. After 10 to 20 minutes, sweep and destroy all fallen insects. Repeat spraying at least once a week or when infestation has increased.

When used on stored food products, contact as many insects as possible by spraying thoroughly. Do not allow the spray to contact open food products.

FOR INDUSTRIAL OR INSTITUTIONAL USE ONLY

**FOR ROACHES, SILVERFISH, WATERBUGS, CRICKETS, SPIDERS, AND CENTIPEDES:** Direct spray in such a manner as to penetrate cracks, crevices, moist areas, openings around pipes, baseboards, doors, windows, behind and beneath cabinets and storage areas. Thoroughly fog around shelves, under sinks, refrigerators, dishwashing machines, and bottle washing machines. Contact as many insects as possible. For routine control spray KILLZOL BRAND at least once a week. For badly infested areas, spray daily. During the summer months, spraying twice a week is advisable.

**ANT:** Spray trails, nests and points of entry. Spray on ants where possible.

**FOR BED BUGS:** Spray mattress, bedstead corners and all bed supports. Wherever insects might be, as well as the holes or cracks and other hiding places about the bedroom, around baseboards, walls and floors. Spray should be directed into all cracks and hiding places about the room. Spraying should be repeated at regular intervals or whenever these insects are in evidence.

**FOR FLIES AND MOSQUITOES, WASPS, GNATS, SMALL FLYING MOTHS:** Close all doors and windows before spraying. Direct spray toward ceiling and continue spraying with KILLZOL BRAND until area is thoroughly fogged. After 10 to 20 minutes sweep up and destroy all fallen insects. Repeat spraying as often as necessary. Do not remain in treated areas. Ventilate the area after treatment is completed.

**WASP NESTS:** Spray directly in insects and nests.

**CAUTION:** KILLZOL BRAND is a combustible mixture and should not be sprayed near an open flame. Do not spray directly into foodstuffs. Harmful if swallowed. Do not breathe the spray mist. Wear mask or respirator of a type recommended by the U. S. Bureau of Mines to give adequate protection against this material. Wash hands, arms, and face with soap and water after handling, and before eating or smoking. Wash all contaminated clothing with soap and hot water before reuse. Do not remain in treated areas. Ventilate the area after treatment is completed. Do not use on empty drums. Before reusing in recleaning or destruction by perforating or crushing, and burning, safe place away from water supplies.

**ENVIRONMENTAL CAUTIONS:** This product is toxic to fish. Keep out of lakes, streams, ponds, rivers, and reservoirs. Water by cleaning of equipment or disposal of wastes. Apply this product only as directed on the label. Protect pets, birds, and other farm animals before spraying.

**KEEP FROM FREEZING:** If this product is stored in a cold storage room, it may freeze. If it does, do not use. Before use, warm the mixture to room temperature. Before use, warm the mixture to room temperature.
