

NATIONAL

# SAN-5-PINE

- DISINFECTANT
- GERMICIDE
- DEODORANT
- CLEANSER

Phenol Coefficient 11 A.O.A.C. Method

## ACTIVE INGREDIENTS:

Pine Oil.....	4.00%
Isopropyl Alcohol.....	12.25%
Tetrasodium ethylenediamine tetraacetate.....	0.04%
ortho-Benzyl-para-chlorophenol....	6.75%
Soap.....	4.41%

INERT INGREDIENTS..... 72.55%

Do not use, pour, spill or store near heat or open flame.

## DANGER:

**KEEP OUT OF REACH  
OF CHILDREN**

(See right panel for first aid statement and additional precautions.)

## FOR USE AS A DISINFECTANT

For most economical results SAN-5-PINE should be diluted with water. It is readily soluble even in hard water.

To disinfect food plant floors and walls, interiors of hospital buildings, drainboards, glass, cooling rooms, lavatories and garbage cans, rinse thoroughly with a solution of 2½ ounces of SAN-5-PINE to each gallon of water. Do not use on any surfaces that may contact food. Not effective against *Pseudomonas aeruginosa*.

To disinfect floors, cellars, toilet rooms, urinals and sinks, clean thoroughly. Use 2½ ounces of SAN-5-PINE to every gallon of water; mop in regular manner. If it is impractical to mop specific places, use 4 ounces per gallon of water and spray thoroughly over entire surface.

For more drastic conditions, thorough cleaning must be done by use of strong cleaning solutions, removing all dirt, then making sure disinfectant comes in contact with all contaminated areas. Disinfect with a solution of 5 ounces of disinfectant per gallon of water.

Not Intended For Household Use  
Or Resale

## GENERAL PREMISE CLEANING AND DISINFECTING:

Cleanse floors, walls, glass, toilet rooms, sinks and similar hard surfaces and use a solution of 1.5 ounces of SAN-5-PINE to each gallon of water. (Place SAN-5-PINE in pail before adding water.) This mixture acts as a disinfectant against *Salmonella typhosa*. It is highly toxic to gram-negative bacteria. Not effective against *Pseudomonas aeruginosa*.

SAN-5-PINE has a pleasant piney aroma.

## PRECAUTIONARY STATEMENTS

Hazards to Humans

**DANGER:** Keep out of reach of children. Causes eye damage or skin irritation. Protect eyes and skin when handling. Do not get in eyes, on skin or clothing. Harmful if swallowed. Avoid contamination of food.

**FIRST AID:** In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, promptly drink a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician.

**DISPOSAL:** Rinse empty container thoroughly with water before discarding or returning, drum to drum, reconditioner.
