Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Cover exposed food, dishes and food handling equipment. Open cabinets and doors to area to be treated. Shut off fans and air conditioners. Put out all flames and pilot lights. Close doors and windows. Point valve opening away from face and eyes when releasing. Use one unit for each 8.807 cubic feet of unobstructed area. Use additional units for remote rooms or where free flow of mist is not assured. Do not remain in the area during treatment and ventilate thoroughly before re-entry.

TO OPERATE VALVE: To lock valve in open position for automatic discharge, press valve button all the way down, hooking the catch. Then place fogger on stand or table in the center of the room with valve locked open. Place several layers of newspaper or pad under fogger. Leave fogger at once and keep building closed for four hours before letting out fresh air. Turn valve down and allow fogger to operate. Repeat spraying in two weeks or when necessary.

To kill insects on contact, use fogger in small rooms. Use fogger in large rooms. Use fogger in large rooms. Use fogger in large rooms.
