

PK 10 1769-306 07-1-91

APR 02 1991

Ms. Chanda B. Hill  
NCH Corporation  
2727 Chemsearch Boulevard  
Irving, TX 75062

Dear Ms. Hill:

Subject: Revised Label - Confidential Statement of Formula  
Secure Insecticide  
EPA Registration No. 1769-306  
Your Submission Dated February 7, 1991

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable. A stamped copy is enclosed for your records.

As labels are printed, replace the name given with "d-trans allethrin" in the ingredient statement. That is the accepted common name.

Sincerely yours,

*RFM*  
Richard P. Mountfort  
Product Manager (10)  
Insecticide-Rodenticide Branch  
Registration Division (H7505C)

Enclosure

COLUMN 2

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**SPACE SPRAY:** To kill accessible stages of house flies, fruit flies, small flying moths, gnats, cheese skippers and these common stored product pests: granary weevils, rice weevils, confused flour beetles, saw-toothed grain beetles, spider beetles, cigarette moths, Indian meal moths, Tobacco moths, meal worms and grain mites: Close windows and doors and shut off ventilating systems. Use a fogger or vaporizer adjusted to deliver an aerosol spray (no droplets over 50 microns in diameter and 80% less than 30 microns).

BEST AVAILABLE COPY

Apply at the rate of 1 ounce per 1000 cubic feet of space. Direct the spray toward the ceiling and upper corners of the area behind obstructions. Vacate and close off treated area. Do not re-enter for at least 15 minutes after application. Ventilate before reoccupying.

In mushroom production and processing: To kill mushroom flies or fungus gnats in growing houses, apply at a rate of 1 ounce per 1000 cubic feet of space. Fogger should be operated 8 to 10 feet away from beds and directed slightly upward over them. Circulating fans should be left in operation; however, refrigeration should be turned off. In packing and canning plants, use at a rate of 1 ounce to 2000 cubic feet of space.

SPACE AND CONTACT SPRAY: To kill accessible, exposed stages of silverfish, crickets, roaches, clover mites, earwigs and ants, first, using equipment which can deliver a pin spray, direct spray into all cracks and crevices in woodwork, walls, floors, underneath sinks, behind pipes and in all places where these insects are known to seek shelter. Contact as many insects as possible; spray directly all ant trails. Do not allow spray to contact stored food. Then, shutting all doors, windows, and shutting off all ventilating systems, proceed with space spraying directions as given above. Use a dosage rate of 1 ounce per 1000 cubic feet of space. Vacate and close off treated area. Do not re-enter for at least 15 minutes after application. Ventilate before reoccupying. Repeat treatment as necessary.

NOT FOR RESALE.

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION**

Harmful if swallowed. The use of this product in food processing establishments should be confined to time periods when the plant is not in operation. Foods should be removed before treatment. Food contact surfaces and equipment must be washed with an effective cleaning compound followed by a potable water rinse after using this product. Stored food products which are infested should be fumigated or treated by other effective methods using an approved product intended for that purpose.

**STATEMENT OF PRACTICAL TREATMENT**

**IF SWALLOWED:** Do not induce vomiting. Call a physician or Poison Control Center immediately.

**IF INHALED:** Remove to fresh air.

**IF ON SKIN:** Remove contaminated clothing and wash affected area with soap and water. Get medical attention if irritation persists. Wash contaminated clothing separately from other laundry.

**IF IN EYES:** Flush eyes with plenty of water. Get medical attention if irritation persists.

**NOTE TO PHYSICIAN:** Contains petroleum distillate. Vomiting may cause aspiration pneumonia.

**ENVIRONMENTAL HAZARDS**

This product is toxic to fish. Keep out of lakes, streams or ponds. Do not apply where runoff is likely to occur. Apply this product only as specified on this label. Do not contaminate water when disposing of equipment washwaters.

**PHYSICAL OR CHEMICAL HAZARDS**

Do not use this product in or on electrical equipment due to the possibility of shock hazard.

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage or disposal.

**STORAGE:** Store in a cool, dry area inaccessible to children and away from heat or open flame. Keep container closed.

**PESTICIDE DISPOSAL:** Wastes resulting from the use of this product must be disposed of at an approved waste disposal facility.

**CONTAINER DISPOSAL:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

**GENERAL:** Consult federal, state or local disposal authorities for approved alternate procedures.

**TO REORDER:**

In Texas, call 1-800-442-7950  
Outside Texas, call 1-800-527-9921
