FOLLOW-THRU

Highly Concentrated Germicide Based on a Unique Blend of Quaternaries with Organic Soil Load Tolerance.

Cleaner-Disinfectant-Demodizer-Fungicide-Viricide-Sanitizer  
for Hospital and Institutional Use.

**ACTIVE INGREDIENTS:**

Octyl Decyl Dimethyl Ammonium Chloride.....	3.750%
Diocetyl Dimethyl Ammonium Chloride.....	1.875%
Didecyl Dimethyl Ammonium Chloride.....	1.875%
Alkyl (C <sub>14</sub> , 50%; C <sub>12</sub> , 40%; C <sub>10</sub> , 10%)	
Dimethyl Benzyl Ammonium Chloride.....	5.000%
Tetrasodium Ethylenediamine Tetraacetate.....	3.420%
Inert Ingredients.....	84.080%
	100.000%

EPA Reg. No. 1769-313

**DANGER**

**KEEP OUT OF REACH  
OF CHILDREN**

See right panel for additional precautionary statements.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

FOLLOW THRU is a proven "one-step" cleaner-disinfectant-sanitizer-fungicide-viricide in the presence of moderate amounts of organic soil.

**BEST AVAILABLE COPY**

Apply FOLLOW THRU to walls, floors and other hard (inanimate) nonporous surfaces such as tables, chairs, countertops, sinks and bedframes with a cloth, mop or mechanical spray device so as to thoroughly wet surfaces. For heavily soiled areas, a preliminary cleaning is required. Prepare a fresh solution daily or when used solution becomes visibly dirty.

Disinfection—To disinfect hard, nonporous surfaces, add 1/2 oz. per gallon of water. Treated surfaces must remain wet for 10 minutes. At this use level, FOLLOW THRU is also viricidal and fungicidal.

Sanitizing—To sanitize porous or nonporous, nonfood contact surfaces, add 1/4 oz. per gallon of water.

1/2 oz.-per gallon use level. The broad spectrum activity of FOLLOW THRU has been evaluated in the presence of 5% serum and found to be effective against the following by the AOAC User-Dilution test.

*Pseudomonas aeruginosa*  
*Staphylococcus aureus*  
*Streptococcus faecalis*  
*Escherichia coli*  
*Flavobacteria pneumoniae*

*Enterobacter aerogenes*  
*Salmonella schottmuelleri*  
*Salmonella choleraesuis*  
*Shigella dysenteriae*  
*Brevibacterium ammoniagenes*

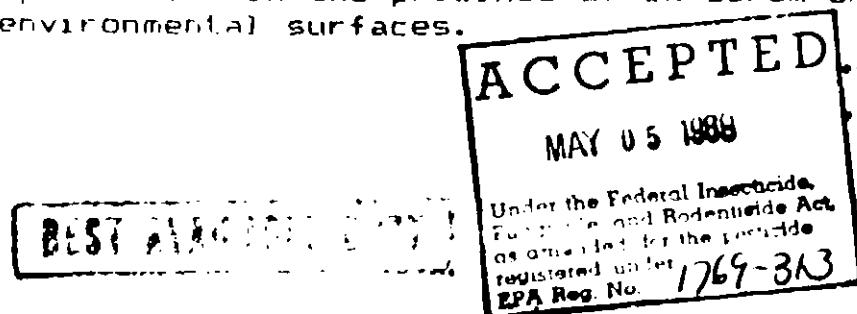

#### AOAC Fungicidal Test

FOLLOW THRU is effective against *Trichophyton mentagrophytes* (the athlete's foot fungus) when used on surfaces in areas such as locker rooms, shower and bath areas, exercise areas, dressing rooms, etc.

#### Viricidal Performance

\*At 1/2 oz.-per gallon use level, FOLLOW THRU was evaluated in the presence of 10% serum and found to be effective against the following viruses: Herpes simplex (a member of the virus family that causes infectious mononucleosis), Vaccinia (representative of the pox viruses), and Influenza A<sub>2</sub> (the Hong Kong flu virus) on inanimate environmental surfaces.

Sanitization-nonfood Contact Surfaces (such as floors, walls, tables, etc.) At 1/4 oz.-per gallon use level, 30-second contact time, FOLLOW THRU is an effective sanitizing agent in waters of up to 600 ppm hardness against *Staphylococcus aureus* and *Flavobacteria pneumoniae* in the presence of 5% serum on porous and nonporous environmental surfaces.

## **RIGHT PANEL**

Cross-contamination is of major housekeeping concern not only in hospitals, but in schools, institutions, and industry. FOLLOW "HFO will deodorize toilet areas, behind and under sinks and counters, garbage cans and garbage storage areas, and other places where bacterial growth can cause malodors. Prevents odors caused by mold and mildew.

This product is economical to use because it is highly concentrated. It should be handled with care.

### **PRECAUTIONARY STATEMENTS**

#### **Hazards to Humans and Domestic Animals**

##### **DANGER**

**CORROSIVE.** Causes severe eye and skin damage. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

#### **STATEMENT OF PRACTICAL TREATMENT**

**Skin:** Avoid contact with skin. If contact does occur, wash skin thoroughly with soap and water. Wash contaminated clothing. If skin irritation occurs, contact a physician.

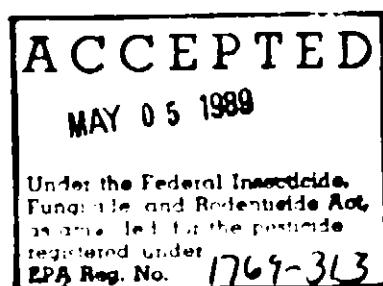

**Eyes:** In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. See a physician.

**Ingestion:** If swallowed, drink promptly a large quantity of egg whites, gelatin solution; or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

**NOTE TO PHYSICIAN.** Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, as well as oxygen and measures to support breathing manually or mechanically, may be needed. If persistent, convulsions may be controlled by the cautious intravenous injection of a short-acting barbiturate drug.

#### **STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage or disposal. Openumping is prohibited. Do not reuse empty container.

**BEST AVAILABLE COPY**

Pesticide Disposal: Pesticides that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticides.

Container Disposal: Triple rinse (or equivalent) and dispose in incinerator or landfill approved for pesticide containers.
