It is a violation of Federal Law to use this product in a Menner inconsistent with its labeling.

BEST AVAILABLE COPY

FOLLOW THRU is a proven "one-step" cleaner-diginfectant. sanitizer fungicide-viricide in the presence of moderate.amounts of organic soil.

Apply FOLLOW THRU to walls, floors and other hard (inanimate) nonporous surfaces such as tables, chairs, countertops, sinks and bedframes with a cloth, mop or mechanical spray device so as to thoroughly wet surfaces. For heavily soiled areas, a preliminary cleaning is required. Frepare a fresh solution daily or when used solution becomes visibly dirty. **Disinfection**—to disinfect hard, nonporous surfaces, add 1/2 oz. per gallon of water. Treated surfaces must remain wet for 10 minutes. At this use level, FOLLOW THRU is also viricidal and fungicidal.

Sanitizing--To sanitize porous or nonporous, nonfood contact surfaces, add 1/4 oz. per gallon of water.

1/2 oz.-per gallon use level. The broad spectrum activity of FOLLOW THRU has been evaluated in the presence of 5% serum and found to be effective against the following by the AOAC Use-Dilution test.

Pseudomonas aeruginosa Staphylococcus aureus Streptococcus faecalis Escherichia coli Klebsiella pneumoniae Enterobacter aerogenes Saimonella schottmuelleri Salmonella choleraesuis Shigella dysenteriae Brevibacterium ammoniagenes

ADAC Fungicidal Test

FOLLOW THRU is effective against Trichophyton mentagrophytes (the athlete's foot fungus) when used on surfaces in areas such as locker rooms, shower and bath areas, exercise areas, dressing rooms, etc.

Viricidal Performance

*At 1/2 oz.-per gallon use level, FOLLOW THRU was evaluated in the presence of 10% serum and found to be effective against the following viruses: Herpes simplex (a member of the virus family that causes infectious mononucleosis), Vaccinia (representative of the pox viruses), and Influenza Alout 27,83,112/out 27,84/ (the Hong Kong flu virus) on inanimated environmental surfaces.

Sanitizing-nonfood Contact Surfaces (such as floors, walls, tables, etc.) At 1/4 or -per gallon use level, 30-second contact time, FOLLOW THRU is an effective sanitizing agent in waters of up to 600 ppm hardness against Staphylococcus aureus and Flebsiella pneumoniae in the presence of 5% serum of porcus and nonporous environmental surfaces.

RIGHT PANEL

Cross-contamination is of major housekeeping concern notionity in hospitals, but in schools, institutions, and industry. FOLLOW THRU will deodorize toilet areas, behind and under sinks and counters, garbage cans and garbage storage areas, and other places where bacterial growth can cause malordors. Frevents odors caused by mold and mildew.

This product is economical to use because it is highly concentrated. It should be handled with care.
