TESTIMONY

ADDITIONAL PRECAUTIONARY STATEMENTS
 Letter Dated:
OCT 17 1988

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No. 1769-321

Disinfectant-Cleaner-Sanitizer-Fungicide
Antiviral-Virucide*-Deodorizer for Hospitals,
Institutional and Industrial Use

Use in water up to 400 ppm hardness. Use as directed. Do not use in the presence of serum contamination.

TESTIMONY	Concentration
1. Methylammonium chloride	1.000%
2. Chlorine	0.250%
3. Ammonium chloride	0.250%
4. Sodium chloride	2.000%
5. Water	94.500%
6. Other	1.000%

OUT OF REACH OF CHILDREN
DANGER

Cross contamination is of major housekeeping concern in hospitals, schools, institutions, and industry. TESTIMONY has been formulated to reduce the reduction of cross contamination in these areas.

TESTIMONY is a one step disinfectant-cleaner that is effective against a broad spectrum of bacteria, is virucidal, fungicidal, and will prevent the growth of mold and mildew and their odors when used as directed.

TESTIMONY is an effective one step sanitizer-cleaner for use on nonfood contact surfaces.

When used as directed, TESTIMONY will deodorize surfaces in toilet areas behind and under sinks and counters, garbage cans and garbage storage areas and other places where bacterial growth can cause malodors.

Precautionary Statements
Hazards to Humans and Domestic Animals

DANGER

Keep out of reach of children. Corrosive. Causes severe eye and skin damage. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful if swallowed. Avoid contamination of food.

Statement of Practical Treatment

IN CASE OF CONTACT, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

IF SWALLOWED, drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

STORAGE AND DISPOSAL

- DO NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE OR DISPOSAL
- OPEN DUMPING IS PROHIBITED
- DO NOT REUSE EMPTY CONTAINER

PESTICIDE DISPOSAL

PESTICIDE SPRAY MIXTURE OR RESIDUE THAT CANNOT BE USED OR CHEMICALLY REPROCESSED SHOULD BE DISPOSED OF IN A LANDFILL APPROVED FOR PESTICIDES OR BURIED IN A SAFE PLACE AWAY FROM WATER SUPPLIES.

CONTAINER DISPOSAL

TRIPLE RINSE FOR EQUIVALENT, AND DISPOSE IN AN INCINERATOR OR LANDFILL APPROVED FOR PESTICIDE CONTAINERS, OR BURY IN A SAFE PLACE.

GENERAL

CONSULT FEDERAL, STATE OR LOCAL DISPOSAL AUTHORITIES FOR APPROVED ALTERNATE PROCEDURES.

TESTIMONY is a proven, one step disinfectant-cleaner sanitizer fungicide-virucide-virucide which is effective in water up to 400 ppm hardness in the presence of 5% serum contamination.

Apply TESTIMONY to walls, floors and other hard (inanimate) nonporous surfaces such as tables, chairs, countertops, sinks, tile, porcelain, and bedframes with a cloth, mop or mechanical spray device so as to thoroughly wet surfaces. For heavily soiled areas, a preliminary cleaning is required. Prepare a fresh solution daily or when use solution becomes visibly dirty.

Disinfection—to disinfect hard, non porous surfaces in hospitals add 2 oz. per gallon of water. Treated surfaces must remain wet for 10 minutes. At this use level, TESTIMONY is also virucidal, fungicidal and fungistatic. At 1 1/4 oz. per gallon of water, TESTIMONY will disinfect hard non porous surfaces in school, industry and non-medical institutions.

Sanitizing—to sanitize porous and non porous, non food contact surfaces, add 1 oz. per 2 1/2 gallons of water. Treated surfaces must remain wet for 60 seconds.

2 oz. per gallon use-level. The broad spectrum activity of TESTIMONY has been evaluated and found to be effective against the following organisms by the ADAC Use-Dilution test:

Pseudomonas aeruginosa	Enterobacter aerogenes
Staphylococcus aureus	Streptococcus faecalis
Salmonella choleraesuis	Shigella dysenteriae
Escherichia coli	Brevibacterium ammonigenes
Streptococcus pyogenes	Salmonella typhi
Klebsiella pneumoniae	Serratia marcescens

For schools, industry and non-medical institution use. At 1 1/4 oz/gallon of water, TESTIMONY delivers excellent cleaning and germicidal effectiveness. It is effective against Staphylococcus aureus, Salmonella choleraesuis, Escherichia coli and Serratia marcescens. The same ADAC tests used to confirm performance for hospitals were used.

ADAC Fungicidal Test. TESTIMONY is an effective fungicide against Trichophyton mentagrophytes (the athlete's foot fungus) when used on surfaces in areas such as locker rooms, dressing rooms, shower and bath areas, exercise facilities, etc.

Mold and Mildew Control. At 1 1/4 oz/gallon, TESTIMONY will effectively inhibit the growth of mold and mildew and the odors caused by them when applied to hard non porous surfaces (as indicated in general instructions above). Allow to dry on surface and repeat when mildew growth returns.

Virucidal Performance. At 1 1/4 oz/gallon use level, TESTIMONY was evaluated and found to be effective against the Influenza A/Brazil Virus on inanimate environmental surfaces.

Sanitizing Non Food Contact Surfaces (such as floors, walls, tables, etc.) At 1 oz. per 2 1/2 gallon use level, TESTIMONY is an effective sanitizer against Staphylococcus aureus and Klebsiella pneumoniae on hard porous and non porous environmental surfaces.
