US ENVIRONMENTAL PROTECTION AGENCY
OFFICE OF PESTICIDES PROGRAMS
REGISTRATION DIVISION (75-767)
WASHINGTON, DC 20460

EPA REGISTRATION NO.
1769-354

DATE OF ISSUANCE
August 20, 1987

TERM OF ISSUANCE
Until Reregistration

NOTICE OF PESTICIDE: REGISTRATION
 REREGISTRATION
(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

NAME OF PESTICIDE PRODUCT
DURSHAN AFROSOL GZ

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

☐ RCH Corporation
2727 Chemsarch Boulevard
Irving, TX 75062

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Add the phrase "EPA Registration No. 1769-354" to your label before you release the product for shipment.
3. Your 30-day accelerated storage stability study is acceptable. However, a 1-year storage stability study for this product must be submitted within 15 months from the date of this registration.
4. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.

1769-354

CAUTION

Harmful if swallowed or inhaled. Avoid contact with skin, eyes or clothing. Avoid inhalation of vapors. Wash hands with soap and water after using and before eating or smoking. Do not allow children or pets to contact treated surfaces until spray has dried. Do not allow children to lie or sleep in treated areas until at least six hours following treatment. Do not spray air in rooms or use on plants. Apply as a surface spray only. Do not allow spray to contact food, foodstuffs or water supplies. Thoroughly wash dishes and food handling utensils contaminated with this product. Remove pets and cover fish bowls before spraying.

STATEMENT PRACTICAL TREATMENT

- IF ON SKIN: In case of contact, remove contaminated clothing and immediately wash skin with soap and warm water. Wash clothes before reuse.
- IF IN EYES: Flush eyes with water for 10 to 15 minutes. Call a physician if irritation persists.
- IF INHALED: Remove the victim to fresh air. Apply artificial respiration if indicated. Give nothing by mouth to an unconscious person.

NOTE TO PHYSICIAN: Chlorpyrifos is a cholinesterase inhibitor. Atropine by injection is antidotal only if symptoms of cholinesterase inhibition are present.

Application of this product in the food areas of food handling establishments other than as a spot and/or crack and crevice treatment is not permitted.

Do not use this product in conduits, motor housings, junction or switch boxes because of possible shock hazard. If there is a need to treat such areas, use only oil-base sprays.

STORAGE AND DISPOSAL

STORAGE: Store in the original container in a cool, dry place inaccessible to children and pets.

DISPOSAL: Wrap the container in several layers of newspaper and dispose in trash. Do not puncture or incinerate.

DURSBAN AEROSOL 6Z

PYRENONE DURSBAN WATER-BASED PRESSURIZED SPRAY

Pyrenone Provides Flushing Action and Fast Knockdown.

Kills Cockroaches, Ants, Spiders, Ticks, Fleas, and more.

ACTIVE INGREDIENTS

Pyrethrins.....	0.052%
*Piperonyl Butoxide, Technical.....	0.260%
**Chlorpyrifos [O,O-diethyl O-(3,5,6-trichloro-2-pyridyl) phosphorothioate].....	0.500%

INERT INGREDIENTS.....	<u>99.188%</u>
	100.000%

*Equivalent to 0.208% (butylcarbityl) (6-propylpiperonyl) ether and 0.052% related compounds.

**U.S. Patent No. 3,244,586

Use in and around homes, apartments, garages, motels, hotels, institutions, and food processing plants.

Residual Insecticide. Lasts for weeks.

Use outdoors as an aid in reducing annoyance from flies and mosquitoes entering the home.

EPA REG. NO. 1769_____ CODE 823.08 EPA EST. NO. 4140

KEEP OUT OF REACH OF CHILDREN

CAUTION

(See Additional Precautions on Side Panel)

NET WEIGHT: 13.5 oz./383 g.

This water-base formula has no strong solvent odor, is nonstaining, and won't damage carpets, rugs, drapes or floors.

LEFT PANEL

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

To operate, hold the can upright, direct the orifice toward the surface to be treated, and press the actuator button. Do not use as a space spray. **SHAKE WELL BEFORE USING.**

To kill ants, carpet beetles, centipedes, cockroaches, crickets, earwigs, firebrats, pillbugs, silverfish and spiders: thoroughly apply as a spot treatment to areas where these pests are found or may hide, including dark corners of rooms and closets; cracks and crevices; under carpets; along baseboards and door sills and frames; behind and beneath sinks, stoves, refrigerators, and cabinets; and around garbage cans, plumbing and other utility installations. Pests driven out of hiding places should be sprayed directly. Spray ant trails, nests and points of entry.

To kill brown dog ticks and fleas: apply thoroughly as a spot treatment to infested areas such as pet beds and resting quarters, and nearby cracks and crevices; along and behind baseboards, window and door frame and localized areas of floor and floor covering where these pests may be present. Fresh bedding should be placed in animal quarters following treatment. Do not spray pets with this product.

To control flies, gnats, hornets, mosquitoes, small flying moths, wasps, and yellow jackets: use only on outdoor surfaces. Spray outside surfaces of window and door frames and other areas where these pests may enter the home. Also spray dark corners and localized resting areas, such as under eaves, porches, partitions and in garages where these insects may congregate. Flies and mosquitoes coming to rest on treated surfaces will be killed. Repeat treatment when effectiveness diminishes.

Application within food handling establishments (places other than private residences in which exposed food is held, processed, prepared or served) including, but not limited to, areas for receiving, storage, packing (canning, bottling, wrapping, boxing), preparing foods, edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups) and serving areas (when food is exposed and facility is in operation): use as a crack and crevice treatment in and around both food and nonfood areas to control ants, cockroaches, crickets, silverfish, spiders and waterbugs. Apply in small amounts directly into cracks and crevices, in points between different elements of construction, between equipment and floor, in openings leading to voids and hollow spaces in walls, equipment legs and bases.

Care should be taken to avoid depositing the product onto exposed

surfaces or introducing the material into the air. Avoid contamination of food and food processing surfaces. Application within food serving areas (facilities where foods are served, such as dining rooms, but excluding areas where foods may be prepared or held): apply as a spot treatment to selected surfaces, such as baseboards, under elements of construction and into cracks and crevices. Avoid treating surfaces likely to be contacted by food. (Do not apply when facility is in operation or foods are exposed.)
