

DESCRIPTION

PINOL is a cleaner as well as a disinfectant. It is recommended for schools, motels, office and industrial buildings. When it is added to water it makes a "milky white" solution. It is a practical solution for mopping and cleaning rest rooms that require deodorizing and disinfecting. (See directions for correct use dilutions.)

Avoid use where pine odor may be objectionable, such as odors absorbed by foodstuffs, etc.

CAUTION

Harmful if swallowed. If taken internally, do not induce vomiting. Give raw egg white, milk, gruel or cornstarch paste. Call a physician immediately. Skin and eye contact may cause irritation. If in contact, flush thoroughly, with water. Rinse empty container thoroughly with water and discard it.
