

DESCRIPTION

This product is a GERMICIDE as well as a CLEANING AGENT and a DEODORANT for general sanitation.

It is a complete DETERGENT; its germicidal powers have been combined with compatible deterging agents giving it high cleaning performance.

For general disinfecting this product should be diluted 1 oz. to 32 oz. water for non-porous surfaces. For porous surfaces, dilute 1 oz. to 16 oz. of water.

CAUTION

Avoid contact with skin. Avoid contamination of foodstuffs. Avoid getting in eyes. In case of contact, wash thoroughly with water. If irritation persists, get medical attention.

Rinse empty container thoroughly with water and discard it.

DIRECTIONS

RESTROOMS: Use 1 oz. to 2 qts. water to treat against future odors. Mop or clean with solution as usual. Spray or wash urinals and floor areas with solution and let air dry. No stain to surfaces, no odor, no corrosion—this treatment staves off future odors for hours.

For Food Processing Equipment: Use a solution of 1 oz. to 2 qts. water as a **Cleaning Agent** for walls, floors and equipment. Then wet areas or objects again with solution containing 1 oz. HYPINE-8 in 25 oz. of water to **Disinfect**. Rinse all equipment and surfaces with potable water before using. Solution may be sprayed or painted on for **Deodorizing**. Rinse with potable water after treatment.

For Hospitals' Surgical Instrument Cleaning: Use 1 oz. to 20 oz. water. Immerse for two minutes. Its clear solution enables the operator to see and prevent loss of any instrument in the disinfectant solution. Use new solution to disinfect. Autoclave whenever possible. Not recommended for injection equipment.

For Surgery Cleaning: To remove blood, pus, and serous exudates, clean with a solution of 1 oz. to 25 ozs. water. Then apply clean solution to equipment and surfaces to disinfect. Let air dry.

For Barber and Beauty Shops: Soak brushes, combs, razors for ten minutes in solution of 2 oz. per pt. of water. Aids in controlling fungi that cause ringworms and barber's itch, which is often transmitted by such equipment. Use new solution to disinfect.
