

DESCRIPTION

BOWL-SAN may be used to clean, deodorize and disinfect toilet bowls, urinals, shower rooms and hard surface flooring such as, concrete tile, in hospitals, schools, motels, public and private institutions, etc.

BOWL-SAN may also be used on porcelain and porcelain enamel, if the surface is free from cracks and chips, to remove stains, deodorize and disinfect.

BOWL-SAN is a cleaner type emulsion that contains a germicide noted for its deodorizing ability.

BOWL-SAN is a remarkable combination of cleaning ingredients built into one product to clean, deodorize and disinfect.

BOWL-SAN removes uric acid and most water stains, and when used regularly, will prevent them from forming. Regular use of **BOWL-SAN** is highly recommended because it will impart the benefits of a good disinfectant in preventing the spread of many harmful bacteria.
