

## DESCRIPTION

Cross infection is a major housekeeping concern not only in hospitals, but in schools, institutions and industry. **CLEANER-DISINFECTANT** is formulated for this problem area. It both cleans and disinfects effectively when used as directed. Its hard surface disinfecting will reduce the hazard of cross-infection.

Two ounces of **CLEANER-DISINFECTANT** per gallon of water will deodorize bathrooms, garbage storage areas, and other areas where bacterial growth can cause mal odors.

## WARNING

## FIRST AID
