COPPER SULFATE

For use in making Bordeaux Mixture - Copper Fungicide. Dissolve 3 lbs. in 50 gallons of water, then add 4 lbs. of Hydrated Lime. Mix thoroughly - a light blue precipitate will form. (For smaller quantities use 3 ounces of Copper Sulfate dissolved in 3 gallons of water and add 4 ounces of Hydrated Lime.) Spray on foliage for control of Early and late Blight of Tomatoes and Potatoes.

Potatoes: Make application when plants are 4 to 6 inches high and repeat at 10 to 14 day intervals.

Tomatoes: Make application when plants are first set out and repeat at 10 to 14 day intervals.

Use all of solution when made since it will not keep.

CAUTION: Not for drug or Veterinary use. Keep out of reach of children. Do not take internally; Harmful if swallowed. Give an emetic of mustard and warm water. Call a Physician. This product is toxic to fish. Keep out of lakes, streams and ponds.

Manufacturer generally warrants material to be effective for indicated uses. Failure of buyer to properly use, handle and store said materials, void all warranties.
