CAUTION: Keep Out of the Reach of Children. Harmful If Swallowed. Avoid prolonged breathing of spray mist. Do not use near fire or open flame. If swallowed, do not induce vomiting. Call a Physician.

Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before use. When using the product in these areas, apply only when the facility is not in operation.

Remove pets, birds and cover fish aquariums before spraying. Do not remain in treated areas. Ventilate the area after treatment is completed.

DIRECTIONS

FLIES, MOSQUITOES — Close the doors and windows, spray upward toward the ceiling. The room should be filled with a mist and remain closed for 10 to 20 minutes. After spraying as directed, sweep up all the dead or injured insects and burn them. Repeat treatments as often as necessary.

ROACHES, WATERBUGS and SILVERFISH — Spray thoroughly and liberally into all cracks and crevices in moulding and woodwork around sinks, cabinets, shelves, pipe openings in walls and floors or wherever these insects are likely to hide. After spraying as directed, sweep up all dead or injured insects and burn them. Repeat treatment as often as necessary.

ANTS — Spray so as to wet as many insects as possible, paying particular attention to nests and runways. Repeat as often as necessary.

Manufactured by WESTERN CHEMICAL COMPANY, General Office, St. Joseph, Mo.
