**CAUTION: APPLY WITH CAUTION AROUND EYES AND MOUTH. DO NOT SPRAY DIRECTLY ON FACE. AVOID CONTACT WITH LIPS AND EYES.**

**DIRECTIONS:** Skin application for mosquitoes, biting flies, gnats, and fleas. Hold unit 4 to 6 inches from the skin of arms or legs while applying with a slow sweeping motion until surface is slightly moistened. Rub with hand to insure even distribution. To apply to face and neck spray in palm of hand in short bursts and spread on the skin.

Clothing treatments against biting, lice, higgers, mites, and ticks. Treat shirt, trousers, and socks by holding unit 6 to 8 inches from clothing while applying with slow sweeping motion. Continue operation until entire clothing is slightly moistened. This treatment is not necessary for mosquitoes and other biting flies. Liberal application should be made where bites occur, such as across the shoulders and along the thighs. For ticks and chiggers liberal applications should be made along all openings in clothing, such as inside the neck band, and the fly and cuffs of sleeves, and tops of socks. A thorough application requires 3 to 4 ounces of material and 2 to 4 minutes spraying time. Active mosquitoes, biting flies, gnats, and chiggers, one application is effective for a week if repellent is not washed away, and again effective for 3 to 4 days. Clothing may be treated several days before wearing. If irritation develops, discontinue wearing treated clothing.

**CAUTION:** This material is toxic to other paint, certain plastic surfaces, and some synthetic fabrics. Avoid treating goggles, watch crystals, painted helmets, etc. The content of this can is under pressure. Never store in direct sunlight, in flames, or near heat where temperature will exceed 120°F. Never incinerate or incinerate can.

Keep out of reach of children in the presence of this product.
