PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER

May be fatal if swallowed, inhaled or absorbed through the skin. Causes severe skin and eye irritation.

Individuals must wear gloves impervious to the wood treatment formulation in all situations where dermal contact with Creosote is expected (e.g., handling freshly treated wood and manually opening cylinder doors).

Individuals who manually open cylinder doors must wear gloves and a respirator.

Individuals who enter pressure treatment cylinders and other related equipment that is contaminated with the wood treatment formulation (e.g., cylinders that are in operation or are not free of the treatment formulation) must wear protective clothing (including overalls, jacket, gloves and boots) impervious to the wood treatment formulation and a respirator.

Applicators must not eat, drink, or use tobacco products during those parts of the application process that may expose them to the wood treatment formulation (e.g., manually opening/closing cylinder doors, moving trams out of cylinders, mixing chemicals and handling freshly treated wood).

Wash thoroughly after skin contact, and before eating, drinking, use of tobacco products, or using restrooms.

Protective clothing must be changed when it shows signs of contamination. Applicators must leave protective clothing and workshoes or boots and equipment at the plant. Worn-out protective clothing and workshoes or boots must be left at the plant and disposed of in any general landfill, in the trash, or in any other manner approved for pesticide disposal.

Note to User: As used on this label, the term "respirator" means properly fitting, well maintained, half mask canister or cartridge respirators which are MSHA/NIOSH-approved for polynuclear aromatics and organic vapors. Examples of acceptable materials for protective clothing (e.g., gloves, overalls, jackets and boots) required during application and handling of creosotes are polyvinyl acetate (PVA), polyvinyl chloride (PVC), neoprene and NBR (Buna-N).

STORAGE AND DISPOSAL

Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide, or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Do not contaminate water by cleaning of equipment or disposal of wastes.

In case of spillage, absorb and dispose of in accordance with local, state and federal regulations.

RESTRICTED USE PESTICIDE

For sale to and use only by certified applicators or by persons under their direct supervision and only for those uses covered by the applicators' certification.

70/30 CREOSOTE COAL TAR SOLUTION

FOR PRESSURE TREATMENT OF WOOD
(COMMERCIAL USE ONLY)

Active Ingredients:

Coal Tar Creosote - 65.8% min.

Coal Tar - 28.2% min.

Inert Ingredients: 6% max.

KEEP OUT OF REACH OF CHILDREN

DANGER

EMERGENCY AND FIRST AID PROCEDURES

EYE CONTACT: Flush eyes with plenty of clean water immediately for at least 15 minutes. Seek immediate medical attention.

SKIN CONTACT: Remove any contaminated clothing. Wash exposed areas of skin with soap and warm water.

INGESTION: Induce vomiting by drinking 1 or 2 glasses of water and touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. Seek immediate medical attention.

NOTE: Remove and wash, or discard, contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and wildlife. Do not apply directly to water or wet lands. Do not use this product to treat wood intended to be used where it may come into direct or indirect contact with public drinking water or drinking water for domestic animals or livestock, except for those uses including incidental contact such as docks and bridges.
