NET CONTENTS

KLEAR SOL 69 Wash and Surface Sanitizer is recommended for use on hard (non porous) surfaces or on dishes, glasses, food processing equipment or utensils including dairy and brewery equipment utensils that need a strong sanitizer treatment with little or no cleaning action. This material is very effective on table tops, tanks, vats, floors and walls. It is also very effective on dishes, glasses, metallic utensils and equipment.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

CLEAN: All surfaces of gross food particles and soil by a preflush or pre-scrape and, when necessary a pre-soak treatment. Thoroughly wash all surface or objects with a detergent or compatible cleaner, followed by a potable water rinse prior to the sanitizing step. Prepare a fresh sanitizing solution by dissolving 1 1/2 ounce of KLEAR SOL 69 per ten gallons of water. This provides 200 ppm of available chlorine.

FOR DISHES, GLASSES, FOOD PROCESSING DAIRY AND BREWERY EQUIPMENT AND UTENSILS: Dip the items to be sanitized in this solution for 2 or 3 minutes and remove. Allow to air dry. Prepare the same solution for use in the food tank for immersion or spray type machines. Provide 2 to 3 minutes of contact time for sanitizing dishes, glasses and food processing equipment and utensils.

FOR HARDER AREAS SUCH AS WALLS, FLOORS, COUNTER TOPS, AND VESSEL SURFACES: Apply the sanitizing solution with a clean mop, sponge, or cloth, being sure to wet out all surfaces thoroughly. Allow each surface to remain wet for 2 to 5 minutes. Remove excess or drain and allow to air dry.

Prepare a fresh solution daily or more often if the solution becomes diluted or soiled. Do not reuse or add more product to fortify the old solution.

STORAGE AND DISPOSAL

FOR TRIANIMINATE WASTE: FRESHNESS BY STORAGE AND DISPOSAL

STORAGE: Keep container closed when not in use. Do not store near heat or flame.

FOR TRIANIMINATE DISPOSAL: Pesticide wastes are a hazardous waste under Federal law. If these wastes are to be disposed of, use a labeling system that meets the Agency's criteria for the Hazardous Waste Regulations at the nearest EPA Region office for guidance.

FOR TRIANIMINATE DISPOSAL: Metal containers, drums, kegs, or other containers that offer for recycling, reuse, or other procedures approved by state and local authorities.

For Other Containers: Triple rinse the equipment. Offer for recycling or reconditioning, or purchase and dispose of the sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of the smoke.
