

If surface is heavily soiled, use INHIBAC at a rate of 2-3 ounces per gallon to insure thorough cleaning. Sanitize cleaned surface with a rinse solution containing 1/2 ounce of INHIBAC per gallon of water. No rinse required after sanitization.

DEODORIZATION

To deodorize surfaces during cleaning, mop or brush surfaces with a solution containing 2 ounces of INHIBAC per gallon of water.

INHIBAC is an effective antibacterial cleaner designed for use in household and industrial cleaning. When used as directed, INHIBAC will disinfect hard surfaces, such as floors, walls, counter tops and furniture. It may be relied upon to deodorize bathroom areas, garbage pails, food storage areas, kennel areas and other areas where obnoxious odors may develop. This product may be used to control non-pathogenic bacteria in homes, schools, restaurants, public rooms, food processing plants and in other places where efficient cleaning and antimicrobial action is desired. See left panel for use directions.

6 teaspoons = 2 tablespoons = 1 ounce.

HAND WASHING GLASSES, DISHES, SILVERWARE

2-Compartment Sinks

Scrape dishes well. Dissolve 1 oz. for each 2 gallons hot water before dishes are put in sink. Wash dishes, rinse in clean, potable water and air dry.

3-Compartment Sinks

Scrape dishes well. Dissolve 1 oz. for each 2 gallons hot water before dishes are put in sink. Wash dishes in above solution in the first compartment. Rinse dishes in clean, potable water in the second compartment. Sanitize dishes in the third compartment using a solution of KEMBAC 10% quaternary sanitizer (or other approved treatment). Follow directions for use on label of KEMBAC. Air dry.
