

TOBACCO 5% SEVIN*

ACTIVE INGREDIENTS:
*Carbaryl (1-naphthyl N-methylecarbamate) 5.0%
**Erdosulfan (hexachloronexahydrometano-
2,4,3-benzodioxathiepin oxide) 1.5%
INERT INGREDIENTS: 93.5%
*Sevin, U.S. Pat. Nos. 2,903,478; 3,009,855
**Thiodan, U.S. Pat. No. 2,799,685

DUST 1.5% THIODAN®

Insecticide Dust

CAUTION Keep out of reach of children

DIRECTION FOR USE

Apply dust when insects first appear and repeat at 7 to 10 day intervals as required to maintain control. Apply thoroughly to upper and lower leaf surfaces. Observe days interval between last application and harvest indicated by number in parenthesis () following crop listed.

TOBACCO: (Field) Hornworms, Budworms, Flea Beetles, June Beetles, Japanese Beetles - Use 20 to 40 lbs. of dust per acre. Apply when insects first appear and repeat at 7 to 10 day intervals as required to maintain control. Use the lower dosage on small plants and the higher dosage as plants increase in size. Avoid heavy applications just before priming leaves. Avoid excessive applications in the bud of the plant as injury may result. Avoid applications during rain or during periods of high humidity as injury to tender foliage may result. Do not apply within 5 days of priming or cutting.

(Plant Beds): Tobacco Flea Beetle - Use 1 to 2 lbs. per 100 square yards when plants emerge and repeat at 10 to 14 day intervals up to 5 days before pulling transplants.

COTTON: Boll Weevil, Bollworm, Cotton Fleahopper, Lygus Bugs, Thrips, Pink Bollworm - Use 30 to 40 lbs. of dust per acre. Use the lower dosage when plants are small and the higher dosage when plants increase in size. Apply when insects first appear and repeat at 3 to 7 day intervals as required to maintain control. Do not graze meat or dairy animals in treated fields. Do not apply after 25% of the bolls open.

E.P.A. No. 1812-166

* Trademark of Union Carbide Corporation for the active ingredient carbaryl.

The dust is a registered trademark of Farbenfabriken Hoechst A.G.

This product is highly toxic to bees exposed to direct treatment or residues on crops. Protective information may be obtained from your Cooperative Agricultural Extension Service. Birds feeding on treated areas may be killed. Keep out of lakes, streams, or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes.

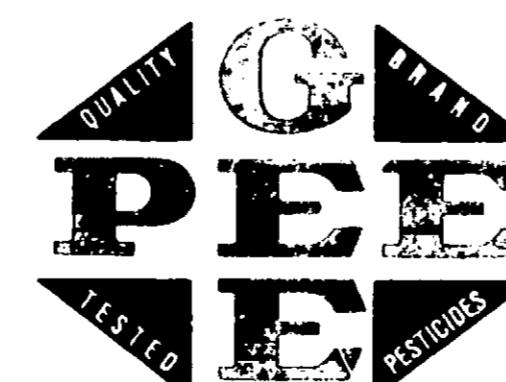

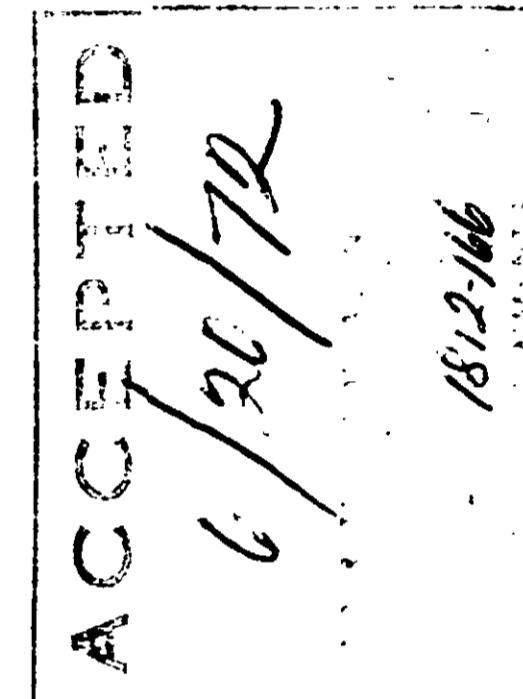

Highly toxic to fish and wildlife. Do not contaminate any body of water nor apply when conditions favor drift from the crop area treated.

Harmful if swallowed, inhaled, or absorbed through skin. Avoid breathing of dust. Avoid contact with skin, eyes or clothing. In case of contact with skin or eyes, flush with plenty of water. For eyes, get medical attention. Wash with soap and water after handling and before eating, or smoking; wear clean clothing. Avoid contamination of feed and food stuffs. Do not apply or allow to drift to areas occupied by unprotected mammals or beneficial animals.

Do not contaminate container. Destroy empty container with waste or bury it six inches deep in soil.

NOTE TO PHYSICIAN: Carbaryl is a moderate reversible cholinesterase inhibitor of the central nervous system. It acts directly on the cholinergic and the adrenergic synapses in the brain.

CAUTION: This product is extremely dangerous within 24 hours of application. Avoid contact with skin and eyes.
