

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS**

CAUTION

Spray may be fatal if swallowed or absorbed through the skin. May cause skin irritation. Do not allow contact of spray with skin or eyes, wear goggles or face shield when handling. In case of skin contact, wash immediately with soap and water. For eye contact, flush with water and get medical attention immediately. Do not breathe spray mist. Spray is hazardous if inhaled. Avoid contamination of food stuffs and feed. In case of ingestion, induce vomiting, immediately consult a physician. Keep out of reach of children.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and wildlife. Birds feeding on treated areas may be killed. Keep out of any body of water. Do not apply where run off is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposal of wastes.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE & DISPOSAL

Storage: Do not contaminate water, food or feed by storage or disposal. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Disposal: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

BEST DOCUMENT AVAILABLE

POTATOES: Early and Late Blight

Ground Application: Apply 0.75 - 1.6 qts of Super Tin-Man per acre in at least 15 gallons of water. Full coverage of the foliage is necessary for the best results. Diluted spray should be directed uniformly to all parts of the plant and the gallonage increased according to the size of the plants.

Aerial Application: Apply 0.75 - 1.6 qts of Super Tin-Man per acre in 3 - 10 gallons of water. For helicopter application fly high enough so as not to whip the vines.

Applications should begin with the appearance of blight weather conditions and continue on a seven (7) day schedule. The lower rate of application should be used early in the season and the high rate mid to late season or when blight infection is in the area. Do not apply within 7 days of harvest.

SUGAR BEETS: Cercospora Leafspot

Ground Application: Apply 1.0 - 2.0 qts of Super Tin Man per acre in at least 15 gallons of water. Full coverage of the plant is necessary for best results.

Aerial Application (helicopter or fixed wing aircraft): Apply 1.0 - 2.0 qts. of Super Tin Man per acre in 5 - 10 gallons of water.

Use lower gallonage when plants are small and increase volume with plant size. Use the lower rate for protective sprays and the higher rates later in the season or during high infection periods. Application should begin when leafspot conditions appear or when the disease is in the area. Repeat at 10-14 day intervals. Do not treat within 14 days of harvest. Do not graze or feed beet tops to livestock.

WARRANTY STATEMENT

GRIFFIN CORPORATION warrants that this product in its unopened package conforms to the chemical description on the label and is reasonably fit for the purposes set forth on the label when used according to directions under normal use conditions on the crops specified. There are no other warranties, expressed or implied, concerning the use of this product other than indicated on the label. This warranty does not extend to the handling or use of this product contrary to label instructions or under abnormal conditions or under conditions not reasonably foreseeable to seller and buyer assume all risk of any such use.
